Vestal's Special Mixture Southern States Evergreen Lawn Grass Seed

Southern States Evergreen Lawn Grass Seed For the convenience of those of our customers who object to the Bermuda Grass, we have decided to offer them this year **Southern States Evergreen Lawn Grass Mixture**. A mixture of the best grasses that exist for general planting in the Southern States. Most lawn grass mixtures are of little use in the South, as they burn out in dry summers.

Vestal's Evergreen Lawn Grass Seed is a well balanced scientific blending of the best American grasses which will flourish under varied and adverse conditions of soil and are by nature adapted to hot, dry climates. It quickly produces a firm, deep velvety and elastic turf and holds its beautiful emerald green color throughout the season.

By using **Vestal's Evergreen Lawn Grass Seed** and with some care and attention to watering, an all-the-year-round lawn can be maintained in the Southern States where lawns generally do not thrive. For a plat 15x20 feet, or 300 square feet, use one quart. Price, delivered free, 45 cents per quart; \$1.25 for 3 quarts; \$2.00 for 6 quarts.

INFORMATION FOR PURCHASERS

WHEN YOU ORDER, please use the printed envelope and order sheet enclosed. Others will be sent you upon request. Always write your name the same, adding the postoffice, county and State on each and every communication you send us. If you have occasion to write us, please use a separate sheet.

LOST OR UNSIGNED ORDERS. Letters are often sent us unsigned and letters are sometimes lost in the mails. If you do not hear from us within a reasonable time, please send us a duplicate of your order, stating when and in what form payment was sent, and sign the name and address the same as in the first order, so that it may have immediate attention.

HOW TO SEND MONEY. Our terms are cash. To avoid delay please send money with order. Money may be sent at our risk if forwarded by P. O. Money Order, Express Money Order, Bank Draft or in Registered Letter, and cost of same may be deducted from amount forwarded; but we cannot be responsible for any order or money that fails to reach us when not sent as above directed. CASH should be sent by Registered Letter, but coins should be carefully wrapped and care taken to seal letter securely. New postage stamps accepted for small amounts.

AGENTS. We employ no agents and are only responsible for orders sent direct to us.

ERRORS. As an evidence of our human failings we sometimes make mistakes. Careful as we are to protect ourselves and our patrons, preach as much as we will to our employees, yet they occur; when they do, notify us at once; we will correct them promptly.

SHOULD YOU RECEIVE two or more Catalogues alike, which sometimes occurs, have the kindness to present such as you do not need to others who will likely want plants. By doing so you confer a double favor. We will also feel thankful for your recommendations of our establishment to your friends wanting plants. A copy of our Catalogue will be furnished to friends requiring plants on receipt of their address.

WHEN SENDING CLUB ORDERS please give full name and address of each member of the club, so that we may enter their names on our books and forward them our Catalogues as issued.

BETTER THAN WE PROMISE. We always do better than we promise in the way of extra plants, so when the

order will at all afford it we add to it some plant or plants gratis, often choice new kinds; several of the Roses now so eagerly sought after were first introduced to our customers in this way—presented with their order.

ORDERS BY EXPRESS. Two-year-old roses, large size shrubbery, fruit trees, etc., are too large to mail and must be sent by express. We recommend that customers instruct us to ship smaller size plants also by express, when in our judgment it is best to do so. We can send larger plants this way and can leave most of the earth on roots, which is, of course, much better for our customers. Express charges must be paid by the purchaser, unless otherwise agreed. But we are careful to pack as light as safety of the plants will permit and add as many extras as we can afford to help cover charges, and since the expressage on plants, bulbs, etc., is now twenty per cent less than regular merchandise rates, the cost of sending goods in this way, even to distant points, is quite reasonable.

OUR GUARANTEE. We guarantee all our plants to reach their destination in a good growing condition, but when we have done this our responsibility ceases, because we know that if they receive proper treatment, they will grow nicely. Many plants die from careless treatment and neglect; in such cases we can not and should not be expected to replace them.

Do not be confused with senseless guarantees which mean nothing. The best guarantee is that given by a reputable house to deliver all goods in first-class growing condition, and failing therein, to replace them immediately. Furthermore, we guarantee that when goods are received, if they are not thoroughly satisfactory, we will make them so or refund your money. When plants reach you in good condition and are planted with ordinary care there is no difficulty in guaranteeing them to bloom at the time nature intended they should, which is sometimes termed "a seasonable time." It would be quite as sensible if we were to guarantee that they should bloom at any other time but at the time nature intended that they should, the so-called seasonable time. We are sure that a guarantee that states that plants are guaranteed to bloom under the above conditions, provided they are not winter killed or die from any other cause, will be taken for what it is worth. Vestal's plants are guaranteed to reach you in first-class condition, and if you give them any kind of care, we guarantee them to grow and bloom.

The firm VESTAL & SON has no connection whatever with any other concern in Little Rock or elsewhere, but is the old original firm established on this present site by its founder, JOSEPH W. VESTAL, in 1880. Letters addressed to VESTAL, LITTLE ROCK, ARKANSAS, will reach us.

VESTAL ROSES AND HOW TO GROW THEM

Who Should Plant Roses

Everyone should plant roses. There is no home, worthy of the name, where space could not be found for from ten to one hundred rose bushes. If a renter, plant roses; you will get returns in beautiful flowers in from two to three months. If a flat dweller, and you have three or more windows, you can plant ten or more rose bushes in window boxes. The results will be a delight, and you can move the window boxes with other personal belongings, when moving day comes around. If a home owner, it matters not how pretentious or humble, nothing can make it more home-like, more attractive and inviting, than a well selected rose planting. If a landlord, there is no improvement that can be made at so small an expenditure that will so quickly enhance the rental value and desirability of property, insuring permanent tenants, as a good rose planting.

Roses are the most popular flowering plants grown. As either plants or flowers, they may be properly and effectively used for a great number of purposes. In the southern states roses may be had in abundance nearly the entire year; longer than any other flower. We can never have too many roses around our homes; we seldom have enough.

SOIL. If the soil is naturally well drained, it will be unnecessary to provide drainage. But nothing is more prejudicial to the health of Roses than poorly drained soil; therefore, if needful, provide drainage. Dig a trench to the depth of 2½ feet, and in the bottom deposit a 4 or 5-inch layer of drainage material, so that all surplus water will drain away quickly. It is a good idea to mix with the soil in the bottom of the trench a few broken bones, say a peck, for a bed holding a dozen Roses—they will furnish plant food for the Roses for three or four years to come. A rich, deep clay loam is the best soil. If it contains grass roots, or is made up of rooted sods, all the better; any ordinary soil will answer, providing it is well manured.

MANURES. While manure from the cow stable is probably best, you can draw upon the horse-stable or pig-sty with equal expectation of good results. Well-rotted leaves are fair, but too light except for heavy soils. Commercial fertilizers, such as bone or guano, may be used to advantage if handled with discretion. A rule to remember is never to let any "green" or "raw" manure come close to the roots of your Roses, but see that it is buried well beneath the root reach, or applied as a top-dressing.

The best time to apply manures is just as the ground begins to freeze in the autumn; let it serve as a protection over winter and dig it in next spring. Even with the best care it may prove necessary at times, say after six or eight years, to renew the Roses or move the bed, adopting the farmer's principle of rotation of crops.

TREATMENT ON ARRIVAL. When you receive the Roses, give them the greatest care; never expose the roots to the drying action of spring winds for a moment. A plant with bare roots exposed to the dry air is like a fish out of water. Should the plants, through delay in transit, come dried out, as occasionally happens, soak the balls of earth and roots in water; if the stems have dried out, after soaking the ball, bury the whole plant in damp earth for several days. This treatment may put them in good condition, while if they are planted when dried out there is danger of their dying.

TIME TO PLANT. The proper time for planting in the various section of the country largely depends, first upon the location, and, second, upon the character of the plant. In the warm climate, southern and southwestern states, in fact all sections where frosts are in-

frequent and the winters mild, pot-grown as well as dormant roses may be planted in the late fall, as well as in the early spring. In the southern states fall planting of both these classes of Roses is considered desirable, but, if the conditions are such that it can not be accomplished, then in the early spring months they may be set out with entire safety.

As to where the preference lies between plants that are pot-grown under glass, and dormant, field-grown plants, it is not easy to discriminate. Our own experience has been that in the southern and southwestern states, the planting of the one-year-old Roses during the months of February, March and April, according to the location, may be accomplished with splendid satisfaction.

MULCHING. The main object being to retain the moisture rather than to enrich the soil, cultivate the garden once a week up to the middle of July, to maintain a dust mulch; after that, a liberal covering of "long" cow or horse stable manure that will not heat will accomplish this purpose best.

HARDINESS. Hardiness in a Rose is a matter of which no one can speak with positive certainty, because the condition of the weather as a rule prescribes the hardiness of a plant, as quite frequently plants that have been out year after year will be winter killed by unusual conditions. As stated elsewhere, the hardiness of the different varieties of plants can be depended upon to be as near accurate as it is possible for any one to determine.

WINTER PROTECTION. Where the temperature gets below freezing, the less hardy Roses will require protection, and all of them will be the better for it, at least about the roots. Soon after the first frost, having hilled up the soil around the stems, cover the Rose beds all over with a 3 or 4-inch layer of good heavy stable manure, and over this a 6-inch layer of leaves, held in place by the most sightly material available. A 12-inch fence of poultry wire will keep the leaves in bounds nicely. If the leaves are not available, straw, corn-fodder and even boxes put over the Roses to shed the rains, will protect from the cold, biting winds and the alternate freezing and thawing of early spring sun-

Too deep Too shallow and set wrong Just right Right and banked for winter

shine and cold nights; but do not smother the Roses, for if too tightly covered they will die. Remove the covering gradually in the spring when danger from frost is past.

HOW TO PRUNE YOUR ROSES

Pruning is the art of improving the productive power and the appearance of a plant. It consists of two distinct operations. 1. The removal of dead, weak, overcrowded, and otherwise useless shoots. Unripe wood which in the spring will usually be found to have discolored pith, caused by the winter frosts, should be cut clean away at the base of the shoot. 2. **Pruning Proper**, the shortening of those shoots which are allowed to remain after the thinning-out process has been completed.

The most frequent errors made in pruning are: (1) leaving too many shoots when thinning out. (2) pruning severely the shoots of varieties which require little, if any, shortening; (3) pruning lightly the varieties which require severe pruning; (4) leaving Rose plants crowded with shoots and cutting these to a uniform length all over the plant in a similar way that a hedge is clipped.

In thinning out a shoot, it should be either cut clean away to the base of the plant, or to its starting point on the elder shoot from which it springs, as the case may be. When the plant has been pruned, the shoots should be left as nearly as possible equidistant from each other, and regularly arranged around it so that it presents a well-balanced appearance on all sides.—National Rose Society's Handbook on Pruning.

DISEASES AND INSECTS

MILDEW—This disease very frequently attacks the foliage of roses, especially the Crimson Rambler. It is shown by a grayish crinkling appearance of the leaves and usually occurs after a change in the temperature. It

Showing where to prune.

can be checked to a certain extent by sprinkling the leaves with powdered sulphur immediately after its appearance. If, however, this does not check it, dissolve one ounce of potassium sulphuret in two gallons of cold water and apply a fine spray.

GREEN FLY OR APHIS—A green sucking insect which usually gathers in great numbers upon the tips of the new growth. A solution of tobacco made from tobacco insecticide soap, which you will find offered elsewhere in this book, will exterminate them.

RED SPIDER—Is also a small insect indistinguishable to the naked eye, and a frequent spraying with a strong hose is all that is necessary.

LEAF ROLLER—Is an insect of yellowish-white color, resembling the butterfly, and lays eggs on the under side of the leaf, which soon form a cocoon, rolling around itself the leaf, hence the name, leaf-roller.

ROSE BUG—A familiar insect, appears in the earliest summer, sometimes in great quantities, and is very troublesome. It is a very destructive insect and usually feeds upon the white petals, but is easily destroyed, especially in the early morning, when they will readily fall into a vessel containing kerosene. They can be poisoned, but it is not a very desirable way to get rid of them. This is to spray with wood alcohol, which will kill any insect by contact, operates quickly and does not injure the flower if applied in a mist-like spray. Care should be exercised by the operator not to inhale any of the fumes.

BLACK SPOT—A fungous disease, appearing as its name indicates as a black spot upon the leaf, eventually turning yellow and falling. It rarely occurs in the early part of the season, and the Teas are almost but not quite, exempt from its ravages. The best preventive if your bushes have been troubled by it in the past is spraying in April before the foliage has developed and not while the flowers are in bloom, because of the discoloration of the foliage. The disease usually appears at the base of the plant and works upward, so a watch should be kept and as soon as any leaves appear affected with this disease they should be pulled off and taken entirely away from the balance of the plants. If this is thoroughly done it will usually hold the disease in check.

Bordeaux Mixture. (Dry.) For dusting plants affected with mildew and all fungous disease. Can be used as a spray. 1-lb. box, 35 cents. (makes 5 gallons liquid); 5 lbs., \$1.25, by express.

Slug Shot. Is an insecticide for the destruction of Potato and Rose Bugs, and all Lice, Worms or Caterpillars upon Melons, Eggs, Cucumbers, Cotton, Tobacco and Cabbage Plants, Tomatoes, Currants, Fruit or Ornamental Trees, Grape Vines, Shrubs and Flowering Plants. An admirable remedy for the Black Clematis Bug.

Directions for Use. Slug Shot is an impalpable composite powder, to be dusted upon the plants. It contains Poison, thoroughly diffused through natural fertilizers, and is perfectly safe in its use to man or beast. Price, one-pound package, 25 cents, prepaid.

BOWKER'S AMMONIATED FOOD FOR FLOWERS

A new odorless Fertilizer for Pot plants. Makes plants grow and bloom luxuriantly, and drives insects from the soil.

It starts the plant at once into a healthy and vigorous growth and abundant bloom. It drives worms and other troublesome insects from the soil. It has no disagreeable odor, and is the only artificial fertilizer which can be used without danger or injury to the plants. It takes the place of liquid manure, and is just the thing that has been wanted for a long time. We have sold tens of thousands of packages of it and have yet to hear the first complaint. If your plants are doing poorly, get a packet and see how quickly they will be benefited. It acts like a charm. The Ammoniated Food is put up in wooden boxes, with attractive wrappers. One package, sufficient for twenty-five ordinary-sized plants for one year, for 50 cents. Sent by mail, postage prepaid, on receipt of price.

INSECTICIDES

Thompson's Rose Nicotine is chemically pure nicotine and quick death to insects on roses. Very convenient to use—no trouble, no odor, no staining; simply apply as directed with spray pump or plant sprinkler. Small can 30 cents, larger size, 60 cents, postpaid.

Tobacco Powder—The Sprinkling Kind for Sprinkling or Dusting Only, is made from heavy black leaf tobacco, strong in nicotine, and so finely pulverized that it can be applied with an ordinary magazine bellows gun direct to plants, indoors or out, or sprinkled around the hothouse to keep the pests in check. Price, one-pound package, 35 cents.

Sulpho-Tobacco Soap. Another splendid insecticide. Directions for use on every package. 3-oz. cake, makes 1½ gallons prepared solution, 15 cents each; 8-oz. cake, makes 4 gallons prepared solution, 30 cents, postpaid.

Hellebore, Powdered White. For the destruction of slugs, worms, caterpillars, etc. Less poisonous than Paris green and London purple, and safer to use. Use as a powder or dissolve one ounce in three gallons of water. Postpaid, ½ lb., 40 cents; 1 lb., 75 cents.

Grape Dust. For mildew, mold or rust mites. Price, ½ lb., 25 cents, postpaid.

Francis Scott Key is the Rose for every American home and should be planted in every garden. Price, strong, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.

Rose Premier. A Glorious New Rose.

THE GLORIOUS NEW ROSE CRIMSON QUEEN

Of late years many marvelous new crimson Roses have been introduced. In our estimation this magnificent new variety takes front rank. This means in comparison with such famous Roses as RHEA REID, HADLEY, HOOSIER BEAUTY and others almost equally beautiful, CRIMSON QUEEN possesses outstanding features of superiority. The color is rich, deep, glowing crimson, overlaid with a velvety-black sheen—so exquisitely beautiful as to baffle description or illustration, while the fragrance is delicious. Altogether this superb newcomer marks a distinctive advance in the field of hardy blooming crimson Roses. As a garden Rose "Crimson Queen" has no superior. When we first saw this Rose in bloom we at once pronounced it the most beautiful crimson Rose we had ever seen, and totally distinct. You will say the same when you see it. It is beautiful beyond words. One of the foremost Rosarians of this country, upon seeing this wonderful variety for the first time, pronounced it the most beautiful of all deep crimson Roses. Price, one-year, 20 cents each; two-year, 75 cents each.

MADAME COLLETTE MARTINET

A vigorous grower of coppery-orange color. The color is very deep and clear, and holds well, which can be said of few yellow sorts. It is a nice grower, free in bloom, and those wanting a yellow different from "Ward" or "Sunburst" should try this one. Price, one-year, 20 cents each; two-year, 50 cents each.

I am an old customer of yours and expect by fall to make a nice order, as room is too small now. If you can send anything extra let it either be Petunias or Pansy plants. Since think of time my first order to you was 18 years ago this month and satisfactory, too. Hoping you to rush as only received your Catalogue..

ROSE PREMIER REMARKABLE FOR ITS LARGE SIZE, CLEAR COLOR, SWEET FRAGRANCE, FREE GROWTH, AND LUXURIANT FOLIAGE

PREMIER is a cross between Ophelia and Russell. It resembles the former in its strong thornless stems and quick growth. Its ample foliage is similar to that of Ulrich Brunner and in arrangement and size of leafage it possesses the character of American Beauty. Premier is truly a big Rose that is ideal among the everblooming; its stiff stems hold the immense flowers upright and what is more remarkable, the stems are almost free from thorns, the upper stem especially being thornless. The flowers are of Russell type, large and broad petaled, of glorious rose pink color, and grand in form. The foliage is large and durable and beautifully set, the leaves broad and dark green, making a fitting background for the fine bloom. To crown its other perfections it has a delicious June-rose fragrance, which is most enchanting. It produces quantities of bloom during the season and seems to claim the Premier place among American Roses. Price, strong one-year-old plants, 35 cents each; two-year-old, \$1.25 each.

COLUMBIA

GIGANTIC IN SIZE—FREEDOM IN BLOOM.

Could be rightfully called the Giant Pink, owing to the enormous blooms it produces. Of distinctive merit, being an extremely strong, rank grower, one of the strongest of the everblooming, blooming as it does with the greatest freedom, the buds carried on long, stiff, erect stems, of the very largest size imaginable in a Rose bloom, open flowers often measuring six inches across, full of petals and of wonderful depth, which it retains in perfect formation. Very fragrant. Color clear imperial pink, on the order of the La France, deepening as it opens to glowing pink. A peculiarity of the variety is that the shades all become more intense until the full maturity of the open flower is reached, and this color is enduring. Being fully double makes it a fine summer Rose, particularly adapted to garden culture. We feel that after all is said, we have not said half enough for Columbia. Price, one-year, 25 cents; two-year, 75 cents.

DOUBLE OPHELIA

This new Rose has the brightest future, in our estimation, of any Rose introduced for the last quarter century. The color is one so difficult to describe that any description can only be a partial one, and gives but a faint idea of the superb beauty and richness of the shades. Salmon-flesh, shaded with rose. Buds of unusual attractiveness, opening full and double, like the old Malmaison, but decidedly brighter. Habit excellent, growth strong; produces flowers on long stems, standing well up above the foliage, and in great profusion all summer. Price, 35 cents each; two-year, \$1.00 each.

OPHELIA

"A Rose of Attractive Coloring."

In this magnificent Rose, we find a Rose of attractive coloring. It might be described as salmon-flesh, shaded rose. The bloom is quite full, unusually long and beautifully pointed with petals of wonderful depth and substance, retaining their shape longer than most Roses. The variety is of fine branching habit and ideal growth, a beautiful and most bushy Rose. Its color is not its only charm as its fragrance fills the room with a delicate pure rose perfume. It ranks one of the best of the garden Roses. The illustration conveys but a faint idea of its beauty and formation, which is of large and perfect shape. Habit excellent, growth strong, produces flowers on long stems, well up above the foliage, and in great profusion all summer. Hardy in almost all localities. Grand for forcing or outdoors. Price, 20 cents each; two-year-old plants, 50 cents each, by express.

FOR HEDGE PURPOSES

American Pillar makes strong canes that grow upright several feet before bending over, therefore a magnificent hedge can be made with this variety without the necessity of providing a support. In May the entire hedge becomes covered from base to tip with the exquisite, delicately fragrant blooms, entrancingly beautiful. Dozen rates, one-year, 12 for \$1.50; two-year, 12 for \$6.00.

The combination of colors in the salmon-yellow Rose Ophelia makes it a highly decorative variety.

The Summer Blooming Ivory-White Rose Kaiserin; Ivory-white in color; flowers double and delightfully fragrant.

KAISERIN AUGUSTA VICTORIA

A Superb, Hardy White Rose.

This marvelous Rose has had many rivals for the place it still retains as the greatest white Rose in existence. Strong, sturdy grower, flowering with the utmost freedom. It holds first place as the most popular of white Roses for general planting. From early spring until late fall its glorious full double flowers in all their perfection are produced continuously on long, stiff, erect stems; color delicate creamy-white, with a delicious magnolia-like fragrance, exquisite buds, absolutely hardy. Price, one-year-old plants, 20 cents each; two-year-old plants, 50 cents each.

LARGE PURE YELLOW ROSE.

ALEXANDER HILL GRAY

The respect of all Rose lovers warrants the issuing of a champion Rose, and a Tea at that, to pay due homage to one of the world's greatest Tea Rose growers. It is wonderfully floriferous, every shoot being crowned with a flower bud, which develops into a bloom of very large size, great substance and perfect formation with high pointed center from which the petals gracefully reflex. The best and largest pure yellow Tea Rose yet introduced. Its color is a solid, deep throughout Marechal Niel-like lemon-yellow; strongly scented. Price, 15 cents each; large size, 50 cents each.

PINK RADIANCE AND RED RADIANCE

The flowers of Radiance are somewhat of the June Rose type, immense in size and highly perfumed.

In the Radiance Roses are found all the good qualities that go to make an ideal garden Rose—grand size, handsome form, free flowering, hardiness, pleasing colors.

RADIANCE

MAGNIFICENT ROSE

(Giant Flowering, Handsome in Form and a Wonderful Garden Rose.)

This grand, giant-flowering Rose stands head and shoulder above all other Roses of its class. The flowers, which are of splendid form, are large and full, and somewhat of the June Rose type. The buds are particularly handsome in form, the full blooms large and double, the petals of immense size and the blossoms are highly perfumed. The growth of the plant is vigorous, making strong canes which are thick and heavy. Radiance is rightly considered a leading Rose of the garden for cutting and successfully competes with many of the finest greenhouse productions as a cut-flower variety. Radiance produces a wealth of heavy, clean, dark green foliage and has the qualities that make it the ideal garden Rose. Price, strong plants on own roots, 20 cents (will bloom the first season); two-year-old plants, 50 cents each; three-year-old, \$1.00 each.

RED RADIANCE

No Rose has yet equalled, certainly none has excelled Radiance as a garden Rose, when all points are taken into consideration, such as hardiness, freedom of bloom, vigorous growth and character of bloom. In Red Radiance we have an exact replica of its prototype, Radiance, except in color and bud. The color is an even shade of clear red, without a trace of any other color, retaining its vividness for an unusually long time after being cut. It is a remarkable bloomer, being constantly in flower, from early spring until freezing weather. Strong, vigorous, branching grower, each branch terminating in a large, bold, double bloom. Hardy everywhere. Altogether it is a Rose destined to become one of the leading garden Roses of America. Price, one-year, 20 cents each; two-year, 50 cents each.

Special Notice: Notwithstanding that each year we have increased as far as we could our stock of these famous Vestal Roses, we have never had sufficient to meet the demand. This has been a keen disappointment both to our customers and ourselves. Won't you please as a favor, that there may be no disappointment, order as early as you can? We will reserve the plants for you, so that early ordering is sure to be a protection to both of us. We have an immense stock, we think amply sufficient, to meet the demand, but for fear it will not, again we urge early ordering.

Dear Sirs: Received the flowers O. K., and they were in fine condition. Please accept thanks for so many extra plants, shall always speak a good word for your house and you can count on my orders in the future. Enclosed find order for seed, which please fill promptly and oblige. MRS. J. D. G., Shamrock, La.

HOOSIER BEAUTY

The Most Beautiful Velvety Crimson Bush Rose in The World.

This is the grandest and most beautiful Rose we have ever seen. No illustration, no description can give the faintest idea of the grandeur of this variety. It is simply exquisitely beautiful, wonderfully strong growing bush form, producing its gorgeous flowers in the utmost profusion all the time—a single plant will give an abundance of magnificent blooms this year. And such flowers! Deep, double, immense in size, gloriously formed, with a color seen in no other Rose, a superb velvety, crimson, rich beyond description. Seemingly nature outdid herself in this variety—every grace—every charm—a new color and to top it all off, it has the fragrance of the old Damask Rose, exquisite and indescribable. This is a marvelous Rose and we say again, the most beautiful we have ever seen in our lifetime. Ours is the true stock and, as the variety is new, we would suggest early ordering. Price, one-year, 25 cents each; two-year, 75 cents each.

To those who prefer a Rose with full color we can recommend none more highly than this gorgeous crimson scarlet Rose. It is hardy in practically all localities and as an outdoor garden Rose it has no superior. Of strong, vigorous, healthy growth, branching freely; it produces its wonderful blooms profusely from April until December. Every shoot carries a well-formed flower of exquisite fragrance and splendid lasting qualities. The illustration gives but a faint idea of the richness of this magnificent Rose. Price, one-year-old plants, 20 cents each; two-year-old plants, 50 cents each.

MISS MILDRED VESTAL

This superb new Rose is a result of a cross fertilization between "Rhea Reid," that grand red bedding Rose, and "Richmond," the greatest of all red forcing Roses, which insures in their offspring every point of excellence. It has magnificent large foliage, free from disease of all kinds, and is a tremendous grower—one of the best in all our list. The glory of the plant, however, is in the immense deep double flower of a new and clear shade of crimson scarlet. Price, one-year-old plants, 20 cents each; two-year-old plants, 50 cents each.

Dear Sirs: I just want to say that the roses that I ordered last spring have been a success in every way so far, and hope that the coming ones will do as well. Oblige,
MISS F. L.,

A Queen Among Roses

American Beauty

Attains Marvelous Perfection—Wherever Roses are grown the fame of the American Beauty Rose is known.

In all the wide world this proud and majestic Queen reigns supreme as the most beautiful, most massive, most gorgeous and exquisitely fragrant Rose of its color now known. Its position is more secure today than ever before. The glory, the charm, magnificent growth and exquisite form of flowers are simply beyond description; color rich, glowing crimson, shaded and veined; flowers immense in size, wonderfully double and beautifully formed, with the fragrance of the old Damask Rose; growth the most vigorous of any Rose we know of outside of Jeanette Heller; foliage large, leathery and of deepest green, especially free from insect attacks. Hardy in all sections of the country, but in cold climates should have careful winter protection. A splendid garden Rose. This great Rose should be in every American home. Its magnificent beauty, wonderful fragrance and extraordinary merit must appeal to the patriotic instincts of every true American. Price, extra large, two-year-old plants, \$1.00 each.

Considered the Largest Flowering Rose Grown.

SUNBURST

"Stands Head and Shoulders Above All."

This magnificent giant-flowering Rose stands head and shoulders above all other Roses of its class. It is a constant blooming variety, producing fragrant blooms of an especially deep color throughout the summer. It has all the good points of merit; a fine long pointed bud; long stems; extraordinarily vigorous and healthy, and belongs in the class of big Roses. The color is a beautiful orange-copper, golden orange and golden yellow, large intense shades, and brilliant in effect. Price, strong one-year plants, 20 cents each; two-year plants, 75 cents each.

MRS. AARON WARD

This Rose is a real joy to the grower and absolutely distinct. One of the most delightful Roses of recent years, in a color that catches the eye at once. Coppery orange in the open bud, golden orange when partly developed, pinkish fawn of lovely shade when fully open, when it looks like a full fluffy rosette. No wonder everybody that sees it falls in love with it. Price, 20 cents for one-year-old plants; 60 cents for two-year-old.

BLUMENSCHMIDT

This is undoubtedly the best Pure Yellow Rose for garden planting yet introduced; color is clear bright, golden yellow; the plant is a strong, robust grower and very hardy; makes beautiful buds and is very double and sweet, and one of the very best. A sport from Mademoiselle Franciska Kruger. We believe it to be the only good yellow bedding rose up to date. You had better try some of this, as unquestionably it has a great future. Price, 15 cents each; two-year-old plants, 50 cents each.

American Beauty.

The Beautiful La France Roses

The La France Roses are of the highest merit, and each member of the family has particularly strong points. Practically hardy everywhere, they are splendidly adapted for general planting.

Price of all the La France Roses, 20 cents each; two-year-old plants, 60 cents each.

LA FRANCE. This is probably the most popular Rose in cultivation. Both buds and flowers are of lovely form and grand size, exceedingly sweet; color fine peach-blossom, elegantly clouded with rosy flesh. Begins to bloom while very small, and continues bearing until stopped by freezing weather.

WHITE LA FRANCE. A seedling of La France; extra large, full, deep, pearly white flowers, delicately shaded with soft rose; exquisitely beautiful and delightfully fragrant.

THE STRIPED LA FRANCE. An elegant new Rose, closely resembling La France in form and substance, but the flowers are distinctly striped with pearl-white and satin-rose.

Gentlemen: The collection of plants arrived in fine condition yesterday and are very satisfactory. Thank you for the care exercised in their selection.

Yours very truly,

Mrs. B. R. Cant

A Great Rose.

This beautiful new Rose, of English origin, we especially recommend for outdoor cultivation as one of the best, if not the best Rose of its class and color now in cultivation. One of the kind that we cannot have too many of. Exceedingly hardy, producing in marvelous profusion deep crimson-pink flowers, perfectly double; delightfully fragrant. Buds large, pointed and beautiful. Price, 15 cents each; two-year, 50 cents each.

Beautiful Bessie Brown

"A Great Outdoor Rose."

A Grand Hardy Rose. Again we desire to call your attention to this magnificent Rose, which maintains itself as one of the best that has ever been introduced into this country. It has unsurpassed beauty of a totally distinct character, bearing large, full, deep and double flowers profusely in the open ground all through the summer. The color is almost pure white, though sometimes flushed with pink; petals large and of fine form. Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.

Bessie Brown. Flowers flesh pink. Everybody can grow it.

BEAUTIFUL YELLOW ROSE

LADY HILLINGDON

"Everybody Can Grow It."

It has long willowy stems that are in no sense weak, as the buds are held upright; has a long slender pointed bud of brilliant deep golden yellow, and a striking peculiarity of this Rose is that each day the golden-yellow color becomes deeper yellow and more intense, unlike all other yellow Roses of which we are familiar, as invariably the tendency after being cut is to get lighter in color. Price, one-year-old plants, 15 cents each; two-year-old plants, 60 cents each.

PRESIDENT TAFT

It is without question the most remarkable of all pink Roses. It has a shining, intense deep pink color possessed by no other Rose. It is a fine grower, free bloomer, good size and form, fragrant, and in a class by itself as to color. Mr. Frank Good, who is probably familiar with more Roses than any man in America, says: "Talk all you want to about the Rose President Taft, and then you will not say enough. Price, one-year-old plants, 15 cents each; two-year-old plants, 60 cents each."

Dear Sirs: I haven't your catalogue but am enclosing check and trust to your good selection and judgment to satisfy me in this little order. I have tried New Orleans and many houses but Vestal has always been more satisfactory than any house I know. I always sing Vestal's praises.

The Faultless Yellow Rose.

GENERAL McARTHUR

One of the Very Best Red Bedding Roses.

General McArthur is as fragrant as a Rose can be; has good sized flowers and blooms continuously. The bud, when first opening, is the brightest, crimson-scarlet and the flower retains this perfect coloring until it drops its petals. Blooms continuously the whole season through and gives fine stems for cutting. Its habit of growth is remarkably good, making strong, shapely plants that may be depended on for large flower shoots. A great favorite. Price, one-year-old plants, 15 cents each; two-year-old plants, 60 cents each.

ETOILE de FRANCE

Magnificent in Form and Coloring.

One of the best and sweetest hardy Roses of its color. The strong, upright bushes have beautiful bronze green foliage, which is not subject to insect attacks. The bushes are blooming constantly, producing large, massive, deep, full cup-formed flowers of magnificent, long, stiff stems. They are of truly glorious form and delightful fragrance, while the color is exquisite—a clear red of velvety crimson. Price, one-year-old plants, 20 cents; two-year-old plants, 75 cents each.

ETOILE DE FRANCE.

The Crimson Garden Rose, a Rose in which we find the embodiment of a perfect bloom, size, form and color.

NATIONAL EMBLEM

Owing to its magnificent color and formation, this Rose was named National Emblem, and no Rose in our estimation has a better right to the honor of being the Standard Bearer. Its color is a deep crimson overlaid velvety crimson shading to vermilion toward the edges. Buds long and pointed on stout stems opening full and double, each one coming to perfection and produced in marvelous profusion throughout the entire season. Plants make a gorgeous sight owing to the

brightness of the blooms and the luster of the foliage, being entirely free from mildew. A grand garden or bedding Rose. Price, 30 cts. each; 2-year-old plants, 75 cts. each.

Princess de Sagan.
Always in Bloom.

PRINCESS DE SAGAN

The Crimson Brabant Rose.

No better garden Rose than this. The color is intense velvety crimson and bush grows dwarf and symmetrical, and when in full bloom is the equal of an azalea. Very hardy and always in bloom. Price, one-year-old plants, 15 cents each; two-year-old plants, 50 cents each.

ROBIN HOOD

This new Rose has a glorious rosy-scarlet color that is at once soft and bright and lasting; the bloom is full and of beautiful build. It is a grand grower, heavily caned and profuse in foliage; flowers very freely produced. Price, 15 cents for one-year-old plants; 60 cents for two-year-old plants.

WELLESLEY

"As Fine as a Rose Can Be."

Wellesley is a Hybrid Tea Rose, as fine as a Rose can be; has good-sized flowers and blooms continuously. The bud, when first opening, is a beautiful shade of bright pink and the flower retains this perfect coloring until it drops its petals. Blooms continuously the whole season through, and gives fine stems for cutting. Will stand the winters any place south of the Ohio River, but north of that line it should be protected. Price, 15 cents each; two-year-old plants, 60 cents each.

NEW CUSTOMERS

As this Catalogue will reach many who have never had our plants, we would urge such to send us a trial order, no matter how small, and although you may be satisfied with plants bought elsewhere, we believe our special strains of many of the newer varieties will make them as profitable to you as they have been to thousands of others who are now regular customers.

MADAME JENNY GILLEMOT

The Grand Rose Wellesley—Flowers Bright Pink.

GRUSS AN TEPLITZ

The Sweetest, Richest Crimson Hybrid Tea Rose.

Called by some growers Virginia R. Coxe. The intense, dazzling color of this Rose is found in no other variety. Fiery crimson, shaded with a dark, velvety sheen, totally unlike any other color in the world. Large, handsome, moderately double flowers. Produced in wonderful profusion throughout the whole growing season; in fact, it is always in bloom. The flowers are produced singly, sometimes in clusters, producing a gorgeous effect on the lawn or in the garden all summer through. The fragrance of Gruss An Teplitz Rose is unexcelled by that of any other variety under cultivation. It is a strong and sturdy grower, often attaining a height of four or five feet, is perfectly hardy in all sections and is one of the finest of many splendid Roses that have come to us from Europe. Price, 15 cents each; two-year-old plants, 50 cents each.

PRESIDENT CARNOT

It is a Rose of the largest size, beautiful both in bud and open flower. The buds come on long, stiff stems, in clusters of from six to twelve. Each individual flower stands out distinct on its stem. No crowding as in the case of so many Roses that bloom in clusters. The color is distinct and novel, a lovely fawn, shading to pearl. It often measures five to six inches in diameter. We have no hesitation in saying that this charming Rose will become as popular as La France, as it has all the good qualities of that Rose, and at the same time is so distinct that it attracts immediate attention. It is, indeed, a wonderful Rose—one that everybody can grow and bloom. Price, fine young, strong plants, 15 cents each; fine two-year-old plants, 50 cents each.

Gruss An Teplitz.

"A Fine Bush Rose of a Fiery Color."

METEOR—VELVETY CRIMSON

An Old Favorite Always in Demand.

Notwithstanding this famous old hardy favorite has long been grown, it still may be regarded as the most beautifully formed, brilliant velvety crimson variety now in cultivation. Beautiful buds and flowers, very large and exquisitely made. The bush is remarkably vigorous in growth, perfectly hardy and constantly in bloom. Price, one-year-old, 20 cents; two-year-old, 60 cents.

LADY BATTERSEA

This variety has long oval buds, sharply pointed, very striking in form; the color is bright cherry crimson; the stems are stiff and extremely long for a red Rose; a vigorous grower; not very full, but an unusually showy variety; the only red Rose approaching Niphetos in form; color, brilliant and unusual. Price, 15 cents each; large two-year-old plants, 50 cents each.

HELEN GOULD

It has proven itself to be the strongest growing, freest blooming, largest flowering and hardiest Rose in existence. It is a better Rose for general planting than American Beauty—the dream and hope of every Rose grower for years past. A strong, dwarf, compact grower, absolutely free from disease of all kinds, young plants blooming continuously throughout the year. The flowers are as large as the American Beauty, are full and perfectly double; the buds are beautifully made, long and pointed, produced on long, stiff, erect stems. The color is a warm rosy crimson, the color of a ripe watermelon. Price, 20 cents each; large plants, 50c each.

Long pointed buds, rosy crimson in color.

Hadley.
Magnificent Rich Velvety Crimson.

GEN. ARNOLD JANSSEN

GEN. ARNOLD JANSSEN. Claimed to have all the good qualities of Jonkheer J. L. Mock as an out-door Rose. Color a deep glowing carmine. Free bloomer. Buds long and pointed on long, stiff stems. Equally as good for forcing. Price, one-year-old plants, 15 cents each; two-year-old plants, 60 cents each.

MADAME ABEL CHATENAY

Further trials each year only serve to strengthen our belief that this is one of the greatest Hybrid Tea Roses of its type; color rosy carmine, with darker shadings; reverse of petals pale salmon. Splendid in the open ground, where it is absolutely hardy. Beautifully formed flowers, full, deep and double. A strong grower and a free bloomer. Price, one-year-old plants, 15 cents each; two-year-old plants, 60 cents each.

RENA ROBBINS

This remarkable new Hybrid Tea Rose is one that will create a sensation wherever grown. The flowers are simply immense in size, a beautiful, clear white or tinted lemon, with the color running to a beautiful shade of orange in the center. Buds are magnificent in formation and color. Flowers produced on long, stiff stems and excellent for cutting. Always blooming. One of the best. Price, 20 cents each; two-year-old plants, 60 cents each.

"Always give the customer more than he expects," was the motto impressed upon us by the founder of our establishment. The strict exercise of this rule to this day in all departments of our business has made us man friends.

HADLEY

In the Hadley we have a Rose that possesses a rich and lasting crimson color, coupled with vigor of growth, robust constitution, and free blooming habit. It will be welcomed alike by the grower who forces Roses under glass for cut flowers and the one who plants outdoors for summer flowers.

It is a development of a strain of red Roses, including Liberty, General McArthur and Richmond. The color is magnificent, rich velvety-crimson, retaining its brilliancy throughout the season. The fragrance is delightful and refreshing. The flowers are borne on long stems and keep in good condition a long time when cut. The growth is splendid, sturdy and healthy, the foliage large and abundant. Price, one-year-old plants, 20 cents; two-year-old plants, 60 cents each.

"MILADY"

No Rose of recent introduction has impressed us as this one. After giving it a thorough test, we are convinced that it will become the most popular outdoor garden Rose in existence, combining as it does, all the desirable features of a Rose for the amateur grower, such as color, freedom of bloom, formation and hardiness. Being a cross between Richmond and J. B. Clark, it has retained the color of both, being a rich velvety crimson, with darker shading toward the center and retaining its color in the expanded bloom. Buds medium long and opening full and double to the center, producing a magnificent flower. Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents.

PINK HERMOSA

"Hardy as a Lilac; Free-flowering as a Geranium."

Everybody knows this famous variety. As hardy as an oak, and always covered with clear pink blooms. There is not a shade of color of any kind to mar its purity. We doubt if any Rose ever grown will take its place. Price, 15 cents each; large two-year-old plants, 50 cents each.

Dear Sir: The plants came in good condition, not a leaf withered, all growing. Respectfully,
MRS. M. O. B.
April 23, 1919. Hurley, N. M.

Rena Robbins. Lemon Yellow.

Antoine Rivoire. Flowers large, full and of splendid form; color, rosy-flesh on yellow ground.

(Summer blooming, hardy with protection). A great favorite in the South; sturdy in growth; branching in habit; free flowering as a Geranium; charmingly shaded rosy-flesh color, on yellow ground with a delicate border of carmine; flowers sweetly fragrant. Price, one-year-old plants, 15 cents each; two-year-old plants, 60 cents each.

ALICE ROOSEVELT

An Improved Mme. Chatenay.

A rare and very beautiful Rose of novel and distinct color, rich pink or rose flushed with orange and fawn. Flowers large, well filled and very fragrant. A strong, healthy grower and free bloomer; quite hardy and fine for the yard or garden. Price, 15 cents each; two-year-old plants, 60 cents each.

MARIE GUILLOT

The Queen of White Roses.

We recommend it as one of the most reliable white Tea Roses in cultivation, especially for outdoor culture. The color is pure white, sometimes faintly tinged pale yellow. The flowers are beautifully made, very large, full and double; the buds are very pretty, of sweet fragrance. Anyone who has not seen this splendid variety growing at its best in the open ground can not conceive of the lovely beauty of its large, bold, handsome flowers. Price, 15 cents each; two-year-old plants, 50 cents each.

ETOILE DE LYON

This magnificent Tea Rose is a rich golden yellow; a strong, healthy and vigorous grower, immense bloomer, bearing flowers and buds early and late. The flowers are very deep, rich and full, excellent substance, very sweet. Surely one of the best and most beautiful yellow Tea Roses for general planting ever introduced. Remarkably hardy, both as to heat and cold; frequently standing the winters here uninjured in open ground without protection, and blooming nicely all through the hottest part of the summer. Price, 15 cents each; large two-year-old plants, 60 cents each.

MAD. DE WATTEVILLE

The Tulip Rose. The color is a magnificent shade of creamy yellow, richly colored with rosy blush; the large petals are bordered with bright crimson, giving it a very striking and beautiful appearance. Price, one-year-old plants, 15 cents each; two-year-old plants, 50 cents each.

LADY ALICE STANLEY

"The Most Popular Garden Rose."

This, we predict, will become very popular as a garden Rose. The petals are shell-shaped, forming a perfect flower; the color on outside of petals is a deep coral-rose; inside, delicate flesh, often flushed and suffused with bright flesh. Remarkably attractive, without doubt a magnificent Rose. Price, 15 cents; two-year-old plants, 60 cents.

SAFRANO

Valued very highly for its beautiful buds and handsome flowers. The color is a bright apricot-yellow, passing to orange and fawn, sometimes tinted with rose. A splendid old-time Rose that has never been replaced by any new-comer of its class or color. It is a variety especially adapted to outdoor planting; vigorous, healthy; blooms all summer. Price, 10 cents each; two-year-old plants, 50c each.

OUR ROSES

Are grown in 3-INCH pots.

They are superior to the young Roses from two-inch pots usually sent out because the larger pot gives ample room for root action and allows the plant to grow naturally. They are sturdy and compact, and when sent by express with the soil on the roots, transplanting scarcely checks their growth. The cut shows a fair sample of the two-inch pot plants as usually sent out by the mail trade, (and a fair sample taken from our stock, growing in three-inch pots).

SEE NOTE REGARDING THESE PLANTS ADJOINING.

MADAME JULES GROLEZ

Red Kaiserin Augusta Victoria.

One of the very best of the new Roses, and one that has so many good qualities that we are quite certain it will find a place in the garden of every flower lover. It has been thoroughly tested by us and we have formed such a high opinion of it that, this year, we have grown an unusually large stock in order to give the Rose the widest possible distribution. Mad. Jules Grolez is an exceedingly free-blooming variety, with very large, finely formed flowers. The color is distinct and charming shade of cherry-red. The fine form and attractive shape of the flowers make them excellent for cutting. Like Kaiserin Augusta Victoria, Mad. Jules Grolez is a Rose of great value for open-ground culture. It is a remarkably strong growing variety, as hardy as the Hybrid Perpetuals, free-flowering and in every way excellent. Price, one-year-old plants, 15 cents each; two-year-old plants, 50 cents each.

Mrs. George Sawyer. Brilliant Clear Rose.

PAPA GONTIER

A strong, vigorous grower and constant bloomer; one of the very best and most valuable, both for open ground and greenhouse; color rich cherry-red, passing to clear, glowing crimson. One of the best for all purposes, with immense buds and magnificent flowers. Price, one-year, 15 cents; two-year, 50 cents.

DUCHESS DE BRABANT

A most beautiful Rose of a fine shade of soft, rosy pink, which deepens to bright rose. The bush is extra hardy and vigorous in growth, blooming constantly. Price, one-year, 15 cents; two-year, 50 cents.

MRS. GEORGE SAWYER

This is one of the newer varieties introduced by the growers of Lady Hillingdon. We have not seen a Rose that has met with such universal appreciation by both the amateur and professional grower, and has won awards in almost every place shown since it was introduced, both in this country and Europe. The color is one very hard to describe, being a shade of brilliant clear rose or bright peach-pink. It is a wonderful grower and bloomer, producing great numbers of strong shoots, each shoot tipped with a bud. The flowers are very large, well formed and full, petals of good substance. A very fine garden Rose, as well as a forcing Rose. Price, one-year-old plants, 15 cents each; two-year-old plants, 50 cents each.

THE BURBANK ROSE

(Summer blooming, hardy with protection.) A perfectly new everblooming Rose. This lovely Rose was raised by Mr. Luther Burbank, of California, known the world over as the "Wizard of Horticulture," and is the only variety out of seventy-five thousand cross-bred seedlings which he raised that he was willing should bear his name. This Rose is the only rival that the famous variety, Champion of the World, has. The color is described as cherry-crimson; it is, in other words, the very deepest and brightest pink Rose in cultivation. It is peculiarly adapted for both outdoor planting or for blooming in pots in the house during winter. It is a strong, vigorous grower, making a well-rounded, bushy plant. Price, one-year, 15 cents each; two-year, 60 cents each.

CAROLINE TESTOUT

A Rose of Great Beauty.

(Summer blooming, hardy with protection.) The petals are large and of the La France form; edged and bordered with silvery-rose. Flowers and buds are extra large and of elegant form; the color is brilliant, satiny rose, deepening at center to clear red. We recommend it as one of the best of the many new Roses recently introduced for outdoor culture. Price, one-year, 20 cents; two-year, 75 cents.

RHEA REID

Grand, New, Hardy, Ever Blooming Rose.

This novelty in Roses is a seedling variety of great distinctness of character. The growth is vigorous, throwing out long shoots with rich green leaves, and each shoot bearing a flower well above the foliage. It is a variety which will produce flowers as large as the American Beauty, as double as the grand Rose Bridesmaid, and as fragrant as the beautiful La France. The buds are long, oval and pointed, of a most beautiful rich crimson, and retain their form for a long time. This variety will immediately prove a most valuable addition to the list of forcing Roses, and will soon be seen in the show windows of cut-flower stores in our large cities. Of all the crimson Roses which have been introduced for years, there is none that has measured up better to the ideal standard than Rhea Reid. Highly recommended. Price, one-year, 20 cents; two-year, 75 cents.

Gentlemen: I received the plants I ordered from you, and I must say they are simply wonderful. They were packed so well that they arrived in perfect condition. Enclosed find balance due on Palm. MRS. A. F. F.,
April 29, 1919. Clarksdale, Miss.

LADY ASHTOWN

Similar to Mad. Caroline Testout, but superior in growth, freedom of bloom and color. Splendid grower, soon producing a large, strong bush continually loaded with blooms of exquisite color and shape. Buds long and pointed, borne singly on long, stiff stems. The illustration was made from photograph of the Rose as grown here by us, and shows the true formation of bloom. Color is a soft, solid carmine-pink of a most pleasing shade. A good Rose for any purpose. Price, one-year-old, 20 cents; two-year-old, 60 cents.

RICHMOND

A Gorgeous Crimson Rose.

The most gorgeous Rose we have ever seen—no other variety can compare with it. In form and fragrance of flower it is simply superb. Wonderfully free blooming, its immense, fragrant, scarlet-crimson flowers are borne on long, stiff stems, making it a rival of American Beauty, and even more dazzling in appearance. Richmond is a Rose which attained wonderful popularity in a marvelously short time, and is considered the standard deep crimson Rose in the florists' shops, selling at all times for high prices. In the garden its flowers are as fine as those found in the green houses. Perfectly hardy. Price, one-year, 15 cents; two-year, 50 cents.

Lady Ashtown.

Jonkheer J. L. Mock—None Better.

BRIDESMAID

One of the Most Beautiful of all Pink Tea Roses.

This variety is valuable for cutting and does finely in the open ground; a sport from the old and popular pink Tea, Catherine Mermet, but of a fine, clear, dark pink, much deeper and more constant in color than Mermet. The bush is a strong, vigorous grower, bearing its flowers on long, sturdy stems. Altogether one of the finest Roses for garden culture and one which is a universal favorite for all occasions. Price, one-year, 15 cents; two-year, 60 cents.

THE BRIDE

Standard White Rose of Excellent Form and Color.

There is no other white Rose more satisfactory than The Bride. The buds and flowers are unusually large, well formed and deliciously perfumed. When planted in the open ground the flowers are sometimes found to be delicately tinted with pink, making it exceedingly attractive. It is of a strong and healthy growth; and a profuse bloomer. Its blooms are of the most suitable form and quality for cut flowers. Price, one-year, 15 cents; two-year, 60 cents.

JONKHEER J. L. MOCK

The Giant Pink Rose.

This sensational Holland production is in a class of its own. It is a true Hybrid Tea with gigantic flowers on great, erect, stiff stems and a growth that is marvelous in its freedom. Has extraordinarily large, heavy foliage and quickly makes a great, strong bush. The flowers are enormous in size, magnificently formed, deep and double, exquisitely fragrant; color bright rich pink, faced with carmine. It is the greatest bush Rose of any color for American gardens that has come out of Europe in the past fifty years. Well named the "Giant Pink Rose." Price, one-year, 20 cents; two-year, 75 cents.

Mr. Vestal: The plants arrived today in good order and thank you for same.

Very truly, MRS. C. E. B.,
January 12, 1919. Lake Providence, La.

MADISON--Immense Flowers of Clearest Snowiest White

Madison. Flowers Snow White.

MALMAISON

Has Long Been a Highly Prized Variety.

(Souv. de la Malmaison.) (Summer blooming, hardy with protection.) This grand old variety, when used as a bedding Rose in summer, has no equal, as it produces the most perfect flowers in the hottest weather. Its rich, flesh-colored flowers are of immense size, double to the center, are produced in abundance, and have the requisite form and substance to withstand our hot, dry summers. Exquisitely fragrant. A noble Rose. Price, one-year-old plants, 25 cents each; two-year-old plants, 75 cents each.

AURORA

Better than Champion of the World; of itself a recommendation of its great value. Flowers of splendid form, large and full, of a brilliant pink. A most vigorous, hardy garden bush Rose, constantly in bloom. Price, one-year-old plants, 15 cents each; two-year-old plants, 50 cents each.

Madison is one of the very best of the new Roses, and one that has so many good qualities that we are quite certain it will find a place in the garden of every flower lover. It has been thoroughly tested by us and we have formed such a high opinion of it that, this year, we have grown an unusually large stock in order to give the Rose the widest possible distribution. The buds are most beautiful, of immense size, and are borne up high on massive stems, and with their round, full, heavy form, carry an air of grace and dignity quite unusual. The flowers are the clearest, snowiest white, and are arranged in the most faultless and symmetrical manner. The fine form and attractive shape of the flowers make them excellent for cutting. Like Kaiserin Augusta Victoria, Madison is a Rose of great value for open-ground culture. Price, one-year-old plants, 20 cents each; two-year-old plants, 60 cents each.

MADAME LAMBARD

The Great Southern Rose.

A first class Rose for garden planting or pot culture; habit of growth is vigorous and blooming quality very free. The color is a beautiful shade of rosy bronze, changing to salmon and fawn, shaded with carmine. A fine variety. Price, one-year-old plants, 15 cents each; two-year-old plants, 50 cents each.

PAULA

A vigorous, free Tea Rose, most deliciously fragrant; habit erect, buds well shaped, sulphur yellow with ochre center; like a better Etoile de Lyon. Price, 15 cents each; two-year-old plants, 50 cents each.

COUNTESS CLANWILLIAM

Long pointed buds opening to large, full, high-centered flowers of great beauty. Color delicate peach-pink at the base of the petals, which are flamed and heavily edged with deep cherry red, a beautiful contrast, which brings out the strong individuality of this charming Rose. Price, one-year-old plants, 20 cents each; two-year-old plants, 60 cents each.

OUR SELECTION, \$1.00 POSTPAID

SENATOR MASCURAND

"The Yellowest of all Roses." (H. T.) This is our pick of all the yellow Hybrid Tea Roses; it is a good grower, very free bloomer; flowers are large, full and globular; color deep orange-yellow, lighter on the edge of the petals. This is a much better Garden Rose than Mrs. Anna Ward. When we say orange-yellow, we do not mean lemon-yellow; it is the yellowest of all Roses. Price, one-year-old plants, 20 cents; two-year-old plants, 60 cents.

DORA HANSEN

"Coloring Almost Indescribable."

This beautiful Rose is one of the best new Roses yet introduced. Its beauty and exquisite coloring is almost indescribable. The color is a soft satiny salmon rose; center fawn and outside petals are flushed red, tinted copper and yellow. The flowers are very full and double and bloom early and late. We recommend this Rose very highly, both for garden purposes and for cut flowers. Price, strong, one-year-old plants, 15 cents each; two-year-old plants, 60 cents each.

CORNELIA COOK

The buds are most beautiful, of immense size, and are borne up high on massive stems, and with their round, full, heavy form, carry an air of grace and dignity quite unusual. The flowers are the clearest, snowiest white, and are arranged in the most faultless and symmetrical manner. Cornelia Cook has the largest bud of any white Rose. Price, 15 cents each; large two-year-old plants, 60 cents each.

FREIHERR VON MARSHALL

MAD. FRANCISCA KRUGER

A really remarkable yellow Rose. We class this as one of the best among the yellow shades. A strong, vigorous grower, blooming constantly and much hardier than the average Tea Rose. It is a vigorous, healthy Rose, of dwarf branching habit, and is simply loaded with flowers all summer long, being even more profuse than most of the tender everblooming Roses. The flowers are large, perfectly double, and of a dazzling scarlet-crimson color, and have the rich, spicy fragrance peculiar to the best Hybrid Roses. Price, 20 cents each; two-year, 75 cents.

NEW ROSE WM. R. SMITH

A Vigorous, Healthy Grower, Excellent in Quality and Beautiful in Bloom.

Whether you live East, West, North or South, whether you wish one Rose or 1,000, here is a Rose which has our unqualified endorsement. It will thrive abundantly in almost any reasonable location.

The flowers are large, full and double, and most exquisitely formed. The petals are so firm they look like wax, softly curled, colored cream with flesh tint tips, buff yellow base and the

center a heart of pink. Perfect buds. The flowers are borne on long, strong stems, just right for making bouquets. Fragrance is delightful. You will admire the foliage, too, deep green leaves on red stems and the new growth of rich garnet; the plant will grow for you vigorously, is among the hardest in this class and blooms abundantly. Price, one-year-old plants, 15 cents each; two-year-old plants, 60c each.

DWARF POLYANTHUS ROSES

Plant Baby Ramblers for Bright Edging. They Bloom Unceasingly

ANNY MULLER

This Rose is very much the same as the Crimson Baby Rambler, except in the color of the flowers, which are a shiny and brilliant pink, produced in the greatest profusion in large clusters. It is a splendid companion for the other excellent members of this family.

MAMAN TOURBAT

A new dwarf bush Rose of the Polyantha class and a splendid one for bedding and growing in pots. The flowers are china rose tinted peach and saffron.

PINK BABY RAMBLER

Orleans Rose.

The showiest and prettiest of the pink "Baby" Roses; this charming and dainty little variety is of beautifully rounded habit and is a huge bouquet of brilliant bloom, deep cerise, with showy center of pure white, florets not crowded, but of beautiful arrangement.

BABY DOLL

Flowers borne in Clusters, Highly Fragrant.

This delightful little "sweet-heart" Rose is an everblooming Polyantha. The color is absolutely new, and quite startling in its brilliancy—golden-yellow, tipped with clear, bright cerise. The little buds and blooms are perfect in form, elegantly finished and borne in small panicles or singly.

BABY TAUSENDSCHON

A dwarf form of the Climbing Tausendschon or Thousand Beauties. It has all the characteristics of the climber in the charm of its flowers, but blooming the entire season. Flowers firm, white, delicately flushed pink, changing to deep rosy-carmine.

ERNA TESCHENDORFF

The color of the flowers is the brightest red. The flowers are large and very double and are produced in constant succession throughout the whole season.

MLLE. CECILE BRUNNER

A popular cluster following bush rose flowers in coloring, rosy-pink on creamy white ground. The variety is a free bloomer and a fine bedding sort.

BONNIE BELLE

Enormous trusses of dark cherry-red flowers. Unusually long buds for a Polyantha. Worthy of trial.

GEO. ELGER

A superb Polyantha Rose with just sufficient of Tea Rose blood to make it different from any in its class. It produces great quantities of lovely little buds of golden yellow, opening into miniature symmetrical Roses. Each bush is so loaded with blooms that they resemble a huge bouquet. Like all Roses of this class, it is free in growth and bloom, blooming all summer. Hardy everywhere with some protection. Foliage bright, attractive green. Excellent companion for the Baby Ramblers.

JESSIE

This new Baby Rambler is an ideal Rose for massing, bedding or for pot culture. The flowers, which are produced in huge clusters, are of a bright, cherry-crimson color which does not fade. Superb. The best of all the Baby Ramblers for pot culture.

WHITE MAMAN COCHET

A splendid Rose; has all the good qualities of Maman Cochet. Like some other white Roses, this variety, especially in the autumn, shows pink markings on the outside petals when the flower is in bud. When open the blooms are pure white and entrancingly lovely, large, fragrant, hardy and freely produced.

CRIMSON MAMAN COCHET

(Etoile de France.)

This well known Rose we have named descriptively Crimson Maman Cochet, because of its vigor of growth, stiffness of stem, heaviness of foliage, freedom of bloom, and hardness. Bears masses of full, deep-formed flowers singly, on long, substantial stems. The color is a new and clear shade of red or crimson-velvet, brightening in center; of exquisite fragrance. One of the best and sweetest Hardy Hybrid Tea Roses of its color.

RED MAMAN COCHET

(Helen Gould.)

This is a Rose that will grow and give satisfaction in almost any soil or situation. It produces its splendid flowers in amazing profusion on long, strong shoots. For vigor and freedom of bloom, thousands of growers regard this Rose as better than American Beauty, and without a peer.

The flowers are very full, perfectly double; buds long and pointed. Color is a warm, rosy crimson, hardy everywhere. The exquisite fragrance, beauty of form and hardness of nature make it ever popular.

PINK MAMAN COCHET

This superb Rose is well known as a queen among Roses, one of the best and most beautiful varieties ever grown, and quite hardy. The flowers are of enormous size, very full and of great depth and substance. Color, rich coral-pink, elegantly shaded with rosy crimson; has broad, thick, shell-like petals and makes superb long-pointed buds; immense bloomer, and flowers the whole season. Deliciously sweet and a hardy, vigorous grower. It ranks among the very finest hardy everblooming Roses.

YELLOW MAMAN COCHET

We continue to regard this grand kind as absolutely the best, everblooming yellow Rose. It is ideal for open ground culture—a typical Cochet Rose, with gracefully molded buds, flowers magnificent when open, on stiff, strong stems. This kind is identical in every way with Pink and White Cochet, except the color of the flower, which is deep sulphur-yellow.

BLUSH MAMAN COCHET

(Wm. R. Smith.)

This magnificent variety is an American-raised, pedigree seedling. It inherits hardness, constitution, fine habit, grand foliage and superb flowers. Where there are so many good qualities, it is difficult to emphasize the leading one, but in this variety we would name its ability to resist disease. The color is a deep ivory-white overlaid with a good, bright shade of pink. As a summer Rose it ranks with the best.

SPECIAL OFFER: One each of Pink, White, Red, Yellow, Blush and Crimson Cochet, strong plants, for 75 cents; two of each, 12 in all, \$1.25. Two-year-old plants, one of each, 6 in all, \$2.50, by express.

TAUSENDSCHON, OR THOUSAND BEAUTIES

A Grand Hardy Climbing Rose.

A beautiful, new climbing Rose which has leaped into popularity by its inherent merit and beauty. The name, "Thousand Beauties," is very appropriate and refers particularly to the wonderful variety of colorings found on any one plant. The flowers are soft pink at first, but as they age the most beautiful shades of carmine-rose, cerise, blush and soft white with a gleam of light yellow, soft crimson and intermediate tints; a combination of charming coloring, which is bewildering. Price, 15 cents each; two-year-old plants, 75 cents each.

AMERICAN PILLAR

The flowers are single, of immense size, three and four inches across and very durable. They hang in immense clusters all along the branches and make a remarkable sight, a veritable sheet of bloom. This Rose is as hardy as an oak tree, of very strong growth, soon covering any space allotted to it. Price, one-year-old plants, 20 cents each; two-year-old plants, 75 cents each.

SILVER MOON

The flowers run four and one-half inches and over in diameter, clear silver white in color, petals of great substance and beautifully cupped. The center is filled with bright yellow stamens, a very attractive feature. It is very floriferous, the plants literally covering themselves with great Clematis-like flowers. They are borne on strong stems, twelve to eighteen inches long, and are delicately fragrant. The foliage is large and abundant, bronzy-green, glossy and practically immune from mildew. Price, 20 cents each; two-year-old plants, 75 cents each.

CLIMBING WHITE MAMAN COCHET

The Sensational, New, Hardy, Everblooming, White Climbing Rose, Long Sought For.

Just as the old favorite White Cochet is one of the very best of all White Tea Roses, so we believe this new White Climbing Tea will jump into the widest popularity. It blooms continuously all summer, bearing the greatest profusion of perfect White Cochet Roses, and the plant grows with wondrous strength and vigor. This is without doubt one of the finest white everblooming Climbing Roses ever introduced, and can be procured from very few concerns. Its scarcity makes it valuable, and it appeals strongly to those who like to have something different from their neighbors. Price, 20 cents each; two-year-old plants, 75 cents each.

Dear Sir: I received the roses today and they were in the same good condition that your plants always are.

Yours truly, MRS. J. A. M.,
March 11, 1919. Clarksdale, Miss.

Climbing American Beauty.

CLIMBING PINK MAMAN COCHET

No Rose we grow is so popular as Maman Cochet. Here we have an exact counterpart of that popular variety, except that it is a vigorous climber. All will welcome this new Rose. No word is needed to emphasize the value of this grand climber, which has retained all of the good qualities of the parent, in addition to its climbing habit; it has already awakened a lively interest among Rose growers. Flowers are large, double and pink, like the bush Maman Cochet Rose. Specially recommended. Price, 30 cents each; two-year-old plants, \$1.00 each.

EVERBLOOMING CLIMBING ROSES

MARECHAL NIEL

The Famous Rose.

The fame of the superb yellow Rose, Marechal Niel, with its large, deep, golden-yellow flowers, is world-wide. It is almost universally held to be the finest Rose for indoors or outdoors, where the climate admits of its cultivation. Its magnificent golden-yellow flowers are almost massive in dimensions, and reports from growers tell of single plants showing one to two thousand blooms at a time. It is of strong growth and beautiful foliage. It is grand in petal, shape, color, fragrance, lasting qualities and size, an extremely free bloomer and flowers throughout the season. Contrary to many Roses, which lose their color after opening, Marechal Niel decidedly improves and takes a deeper yellow after being kept for a day or two. The tea fragrance is strongly present in this Rose. It is a variety which practically stands by itself. Price, 15 cents each; stronger plants, 25 cents; two-year-old plants, \$1.00.

Buds are long and pointed. In bud and flower it is truly beautiful; has a delicious fragrance—just like cherry blossoms. If you want a quick growing, hardy climber, sure-to-bloom Rose, one that will give you flowers this season, this is the only white variety that will do it. Price, 15 cents each; large size, \$1.00 each.

GAINESBOROUGH

This is a Grand Climbing Rose. We wish all our customers could see its great beauty.

For a hardy everblooming climber it has no equal. For beauty and size we place this variety at the head of the Hybrid Teas. Its delicate colors are hard to describe, being delicately tinted flesh, almost white, and lustrous as satin. When in full bloom it resembles a large, fine, white, fluffy Peony, but without a suggestion of stiffness, often measuring eight to nine inches in diameter. Be sure and try this grand Rose; you will meet with no disappointment. Price, 15 cents each.

CLIMBING METEOR

A superb everblooming climbing Rose. A sport from Meteor, famous for its magnificent flowers. True climbing habit, attaining a height of 10 to 15 feet in a single season. Four Famous Rambler Roses

FOUR COLORS---PINK, RED, WHITE and YELLOW

DOROTHY PERKINS (PINK)

This beautiful new Rambler Rose is becoming even more popular than the original Crimson Rambler. And well it may, for it is indeed a finer pillar Rose than that famous variety. The growth of a single season is wonderful, its handsome, glossy green foliage being one of its strong points. The flowers, however, are its crowning beauty, being borne in immense clusters of fifteen to thirty, and possess great lasting qualities. Flowers a beautiful shell-pink, very double, with petals artistically crinkled. Remarkably pretty pointed buds. This Rose is extremely hardy and will withstand the coldest weather. We advise our friends to plant this variety where it can be allowed plenty of room, and it will give an account of itself. Price, one-year-old plants, 10 cents each; two-year-old plants, 50 cents each.

New Fiery-Red **EXCELSA** Rambler Rose

A splendid new Climbing Rose, remarkable in many ways, but particularly in the brilliant fiery-red or intense crimson-scarlet of the flowers. The intensely brilliant color is accentuated by the great masses of giant trusses produced on the plants, and furthermore by the contrast with the deep green glossy foliage. The flowers are very double; they are larger than any of the Rambler Roses and borne in trusses of thirty to forty on each; the body of the flower is brilliant in color, but toward the edges of the petals they light up with a wonderful scarlet-crimson. Price, one-year-old plants, 15 cents each; two-year-old plants, 50 cents each.

WHITE DOROTHY

A White Climbing Rose of Indescribable Charm and Vigorous Growth.

This wonderful Climbing Rose is so exquisitely beautiful that it is well worth all the prominence it can be given. It is a rampant grower and in a remarkably short time will cover a large trellis with its long, sturdy canes clothed with brilliant green, shining foliage of splendid texture and free from mildew or attacks of insects. The flowers are of a brilliant, glistening white and are borne in great trusses, completely covering the plant, until it resembles a snow drift. Price, one-year-old plants, 15 cents each; two-year-old plants, 50 cents each.

SHOWER OF GOLD The color is a deep golden-yellow, with orange shading in the center. This fills the "long felt want" for a "Yellow Rambler." Price, 20 cents; two-year, \$1.00 each.

CLIMBING WOOTTON

To our mind this great Rose is to be classed with Mrs. Robert Peary and other great climbing varieties for these reasons: It is perfectly hardy, has no weak spots, grows with wonderful vigor, blooms continuously throughout the growing season, produces flowers that are nothing less than superb, both in beauty and in fragrance. If there is such a thing as having one Rose more beautiful than another, we think this variety may be entitled to this distinction. It is a strong, rampant climber, growing in one season to a height of from ten to fifteen feet, with large, heavy, insect-proof foliage. It produces in most wonderful profusion its superbly-formed flowers, which are bright magenta-red, passing to violet crimson, richly shaded. The flowers are large, full and regular, with thick, leathery petals, and deliciously scented. Make beautiful buds. Price, 15 cents each; large size, 75 cents each.

CLIMBING CLOTHILDE SOUPERT

Hardy, Everblooming Climbing Rose.

Quick and abundant bloomer and healthy, vigorous growth. The flowers are two and one-half to three inches across, and perfectly double, rich creamy-white, sometimes tinted with blush and borne in immense profusion, the whole growing season from June to November; handsome, glossy green foliage, not subject to insects or disease. Price, 15 cents each; two-year-old plants, 75 cents each.

Pink Dorothy Perkins.

CLIMBING HELEN GOULD

Probably no red Rose has held its place secure in the hearts of Rose lovers for so long a period as has the beautiful Helen Gould. We now have the pleasure of introducing this famous Rose in climbing form. Everybody is familiar with the warm, watermelon-red color of its charming flowers. This is a grand climber. Be sure and try it. Price, 20 cents each; two-year-old plants, 75 cents each.

CLIMBING GRUSS AN TEPLITZ

A climbing form of Gruss an Teplitz. Unquestionably one of the finest climbing Roses ever introduced. The color when first opening is very dark rich crimson, quickly changing to bright scarlet, shading to velvety fiery red. The flowers are very showy and handsome. Remarkably healthy and vigorous; almost immune from all diseases. Price, one-year-old plants, 15 cents each; two-year-old plants, 75 cents each.

CLIMBING MALMAISON

JOS. W. VESTAL & SON

LITTLE ROCK, ARKANSAS

NEW FRENCH HYDRANGEAS

Grand, low-growing, bushy shrubs, hardy only in very sheltered locations. Unequaled for porch and lawn decorations during summer. The blooms are immense, and come in such quantities as almost to cover the bush. On the approach of freezing weather, store in a light, cool cellar and water only sufficiently to keep the roots from drying up. If they start growth during the winter, move to cooler quarters.

SPECIAL NOTE—Blue is a color that is not fixed in Hydrangeas. It is controlled sometimes by climatic, and other times by soil conditions; we can not supply blue flowering Hydrangeas.

To make these Hydrangeas bloom blue, incorporate one-half pound of alum, broken into pieces about the size of a hickory-nut, with each bushel of soil.

Price for all, from 3-inch pots, 25 cents each; from 4-inch pots, 75 cents each; from 6-inch pots, \$1.50 each, by express.

Single Tuberous Begonia.

WATERMELON BEGONIA

(Peperomia Variegata.)

A most beautiful ornamental plant. The leaves are distinctly variegated white and green, and have the appearance of being powdered with frosted silver. 20 cents each.

THE CARDINAL CLIMBER

We consider it the most beautiful, brilliant and distinct annual climber introduced in many years. It is a strong and rapid grower, attaining a height of 30 feet or more, with beautiful deeply laciniated foliage and literally covered with a blaze of circular fiery cardinal-red flowers from mid-July till frost. The flowers are about 1½ inches in diameter, and are borne in clusters of 5 to 7 blooms each. We feel sure that it will become one of the good annual climbers of the future. Like other Ipomoeas it delights in a warm, sunny situation and good soil. Price, 15 cents each; 4 for 50 cents.

GIANT MOONFLOWER

Price, large growing plants, 15 cents each; two for 25 cents; six for 60 cents; \$1.00 per dozen.

OUR SUPERB PANSIES

Pansy plants planted in the spring as soon as the frost is out of the ground will begin to bloom at once, and afford daily pleasure for a month before Coleus or Geraniums could be even planted. If snow should fall after planting they would not be hurt. In fact, to get the best results from Pansies, they should be planted just as early as they can be. To get best results and extra large flowers, the soil must be extremely rich—we use equal parts well rotted manure and soil. Price, 5 cents each; 50 cents per dozen; \$3.00 per 100.

THE CRAB CACTUS

A splendid old favorite. Bears large, rosy crimson flowers and continues in bloom a long time. Each, 25 cents.

ENGLISH DAISES

We can not praise too highly these pretty little spring blooming plants; charming little plants for edging and borders, among our earliest hardy spring flowering perennials. Price, 5 cents each; 50 cents per dozen.

SNOWBALL. A large and very double pure white Daisy.
LONGFELLOW. Best red variety; very double.

GYNURA AURANTIACA

Velvet Plant.

Velvet Plant seems an appropriate name, the leaves being always taken as artificial. They and the stems are entirely covered with purple hairs; shining, glistening, reflecting many new colors. Any change of position appears to alter the color of the foliage. Price, 15 cents each.

NEW BEDDING COLEUS

The Coleus, a plant very familiar to all, is one which, for bedding purposes, can not be excelled. The foliage is very beautiful in many of the good newer sorts, and shows a great variety of markings and fine combinations. It is used in great quantities in private places, in small gardens and in the public gardens and parks. The Coleus is used to best advantage in planting in ribbons of color in the borders along drives, in beds of various shapes, such as stars, crescents, triangles, circles and squares, as the foliage, being of such various colors, can be used with striking effect. Light colors against dark, with borders of contrasting color, which are easily obtained among the yellow, red, striped, mottled, brown, blue-black, plum and other colored sorts, secure effects when used on a fine lawn or in the border, hard to make with other plants.

BEAUTIFUL DECORATIVE FERNS

These beautiful plants for home decoration vie with the Palms for first place in the esteem of flower lovers. They are finely cut and oddly shaped. Ferns give a graceful effect produced by few other plants and they do exceedingly well in the parlor and conservatory. The Nephrolepis family, of which the well-known Boston is a member, has furnished us many beautiful species of late years. We recommend all the varieties listed.

THE BOSTON FERN. This popular Fern has proved one of the best decorative plants of recent introduction. The fronds are much larger than the Sword Fern, and do not stand so stiff, but droop gracefully. Excellent for making large specimen plants, also for hanging baskets. Price, nice young plants, 25 and 50 cents each.

COMPACT SWORD FERN. Fitting companion for the Boston; dwarfer, more erect in growth, much darker shade of green, very gracefully arched. Very desirable as a house plant. Price, 25 cents each; larger, 50 cents each.

WHITMANII. We think this the most popular Fern. Rather dwarf in growth, but graceful, very compact, dense and feathery. Each frond or branch has a double row of perfect little fronds set at right angles to the mid-rib, and so thick the seem almost crowded. It is a healthy, vigorous grower, constantly unfolding fresh fronds of light green that contrast exquisitely with the deep green of the older fronds. It is somewhat like Barrowsii, but decidedly more fluffy, more delicate and beautiful. Fine young plants, 25 cents and 50 cents.

PLUMED SCOTTI FERN. (Nephrolepis Scholzei.) The ideal plumed Fern, holding the same position to all other plumed varieties that Scotti holds to the old Boston. It is a sport from Scotti, possessing all the merits of that most popular variety, but with the pinnate sub-divided, giving it an airy, feathery appearance. Price, nicely shaped plants, 25 cents; larger, 50 cents.

"Teddy Junior" Fern.

NEW FERN JOHN WANAMAKER

"The Wanamaker Boston Fern." Originated from Scholzei, with longer, narrower, gracefully drooping fronds. It is not so compact in growth as Scholzei, and therefore does not decay in the center, and is a durable house fern. It is a rapid grower, making an abundance of fronds, and is quite distinct from any other Fern. Price, nice plants, 25 cents each; larger plants, 50 cents each.

TEDDY JUNIOR. New dwarf Fern. Fronds are broad and beautifully tapered from the base to the tip, drooping just enough to make a graceful plant. Produces nearly four times as many fronds as any other Fern introduced. Compact, vigorous and thrives under most any condition. Price, 25 cents; large, 50 cents.

ASPARAGUS FERNS

Their beautiful sprays of lovely, feathery foliage can be cut freely for bouquets, etc.

ASPARAGUS SPRENGERII. Emerald Feather. Very valuable for vases and baskets. A strong, vigorous plant, very easily grown and requires little care. Price, 15 cents and 25 cents each.

ASPARAGUS PLUMOSUS. Climbing Lace Fern. An extremely graceful window climber. The fine, feathery foliage is always bright and green. Price, 15 cents and 25 cents each.

MOSS FERN

(Selaginella or Lycopodium.)

Much used in fern dishes or grown up in four or five-inch pots. Its foliage is always fresh and green, very delicate and beautiful, lace-like. A bright, green creeper that in a short time completely covers the pot, and will spread on to anything within reach. Price, 15 cents each.

Plumosus.

Nothing more desirable for baskets, vases or for any trailing or climbing plant utility. Price, 20 cents each.

HELIOTROPES

Four Grand New Varieties.

Heliotropes are universal favorites on account of their delightful fragrance and flowering equally as well as bedding plants in the summer, or as pot plants in the house during the winter. A bed filled with them produces a mass of color that can hardly be equaled by any other kind of plants. Indeed, there is nothing that will give so many sweet-scented flowers all through the summer as Heliotropes. They can be potted up in the fall and will flower more or less all winter.

ALBATROSS. Large panicles of pure white flowers in great profusion all season; the best white variety to date.

MAGNIFICENT NEW CANNAS

We offer the following magnificent new Cannas, improvements on existing varieties and sure to please all admirers of fine new sorts. These show the great improvement being made in this popular plant. In profusion of bloom they are remarkable; beginning early in summer they send up shoot after shoot, thus continuing in flower all summer. It is no exaggeration to say that the flower spikes, in size, richness, and diversity of color, are equal to many varieties of Gladiolus.

DRUID HILL

A striking dark-stemmed, deep red-flowered beauty. It has most distinct characteristics. The plant has ebony-red stems and is well furnished with Black-Beauty foliage of more than usual grace. Such a setting makes doubly effective the well-poised heads of rich crimson bloom. Average-sized flowers, but a color combination as yet unmatched. Price, 50 cents each.

MORNING GLOW

Another color contrast of more than usual picturesqueness; foliage an olive-green striped and veined with bronze. A greatly improved descendant of Evolution, with well-mounted flowers of exquisite, soft shell-pink and orange-red center. Price 50 cents each.

SAN DIEGO

Described as Chinese orange or Persian yellow in color. The crimped petals are remarkable for substance, which enables them to withstand the hot summer sun without wilting, and another charm is in the buds, which are dark bronze, harmonizing with the golden bronze foliage. Grand in every way. Price, 50 cents each.

CITY OF PORTLAND

The color is a beautiful, glowing pink, deeper in color than its parent, Mrs. Alfred F. Conard, and the flowers are produced in greatest profusion on strong, erect, branching stalks. It is an early and continuous bloomer, blooming freely in hot or cool weather. Canna experts last season pronounced it the "finest all-round pink Canna to date." Price, 30 cents each; \$3.00 per dozen.

METEOR

A glorious red variety, or, to be exact, a deep crimson. It makes fine large trusses and blooms constantly. The effect produced by the brilliant colored flowers is very striking. Price, 30 cents each; \$3.00 per dozen.

LAFAYETTE

Resembles the famous "Meteor," but the flowers are a more intense scarlet. The heads of bloom are carried erect above the healthy, green foliage, producing a brilliant effect in mass planting. Price 40 cents each.

DRAGON

An incessant bloomer which keeps sending up new bloom-stalks until cut down by frost. Dark ox-blood red. Price, 30 cents each; \$3.00 per dozen.

JUANITA

Bronzy orange-color with golden bronze foliage. An exceptionally attractive flower. Price, 50 cents each.

MAID OF ORLEANS

Rich cream ground mottled and shaded with soft pink. Price, 50 cents each.

WABASH

Beautiful large, carmine-rose flowers, freely produced; the bronze foliage, combined with the pink flowers, produces an unusual and pleasing effect. An unusual Canna. Price, 50 cents each.

Dear Sirs: To say I am delighted with the plants you sent feebly expresses my satisfaction and delight. It was worth the price to remove them one by one from the box and wish now had given you an order for the one hundred offered. They are in splendid growing condition and there are so many plants in the collection had wished for so much. You may look for more orders from me and I will speak words of praise to all flower lovers with whom I come in contact.

Yours with best wishes,

May 19, 1919.

MRS. L. A., Ruston, La.

CHOICEST VARIETIES OF CANNAS

High-grade Cannas have for years been one of our leading specialties, and our fields the past season were a gorgeous riot of color from June to frost, and were admired by many visitors. To those who stopped to look closely at individual varieties, the wonderful improvement in Cannas was very manifest. No other bedding plant will give the same uniform good results in our varied and trying climate. They do well in all sections of the country and stand pre-eminently at the head of the list, succeeding in any sunny position in any kind of soil, but responding quickly to liberal treatment. For best results the beds should be spaded two feet deep and a generous amount of well-decayed manure of any kind thoroughly incorporated, and at all times supplying water freely. For best effect plant in large masses of one color, setting out the plants 2 feet apart.

ALLEMANIA

The giant of all Cannas. Produces the largest flowers. The outer petals are scarlet, with very broad, golden yellow border. Inside of bloom is scarlet and dark red. Price, 10 cents each.

BURBANK

A giant in size. Beautiful, rich, canary-yellow, the throat, finely spotted crimson. Price, 10 cents each.

BUTTERCUP

All plants that we send by express, charges to be paid by purchaser, are packed with a ball of soil on the roots, thus insuring their uninterrupted growth when received. We pack as light as possible consistent with safety.

SOME SHRUBS THAT BLOOM

In corners of the grounds, at curves in walks and driveways, and at the house foundations are excellent places to plant shrubs. In grouping it is always good policy to plant the taller growing varieties back of the lower sorts. This gives a "step-down" effect, and seems to join the house to the lawn.

THRIFTY FRUITS FOR EVERYMAN'S GARDEN

LITTLE COST, LITTLE SPACE, LITTLE LABOR, AND BRING BIG RETURNS

When you plan a home garden nowadays you have to consider what will give the best returns for the space occupied. These fruits all "earn their keep" and more, for from a single grape-vine, well matured, it is easy to get at least a bushel of luscious fruit for eating or preserving for winter. Blackberries and raspberries also produce fruit bountifully. Plant at least a dozen of a kind and plant wherever space can be found.

LARGE, LUSCIOUS GRAPES

Grapes are ornamental as well as fruitful. Plant them wherever you have a place where the vines can be tied. You can plant them against buildings, over arches, on trellises, etc. These vines grow fast, they have large leaves, and make welcome shade in summer.

AGAWAM. Berries very large, with thick skin, pulp soft, sweet and sprightly, very vigorous, ripens early.

BRIGHTON. Large compact bunches, rich wine color, tender and almost seedless, sugary, juicy and rich flavor. Having thick foliage, it is enabled to withstand the heat of summer. We recommend this variety for vineyard or garden.

CONCORD. The old standby. A large purple grape, moderately sweet and juicy; hardy, productive and adapted to almost any soil.

DELAWARE. Bunches small, compact, shouldered. Berries rather, small, round, skin thin, light red. Flesh very juicy and without hard pulp. Flavor sweet, spicy, delicious.

NIAGARA. Bunch medium to large, compact, sometimes shouldered. Berries large, skin thin but tough, pale green at first, changing to pale yellow when fully ripe, with a thin whitish bloom. Flesh slightly pulpy, tender and sweet. It has a musky odor which disappears when fully ripe. Ripens with Concord.

Price, 35 cents each; three for \$1.00.

Delaware Grape.

BLACKBERRIES

EARLY HARVEST (Very Early Blackberry.) The Early Harvest is the very first Blackberry to ripen. Fruit medium size, roundish, oblong; flesh is soft, juicy, mild, pleasant, tender and very good. The vine is vigorous, upright and hardy.

ELDORADO. (Mid-Season Blackberry.) The Eldorado is a large, oblong, conical berry; small seeds and core; flesh tender, sweet and juicy. Jet black color when ripe. Vine is upright, hardy, vigorous and productive.

SNYDER. One of the hardiest, most dependable Blackberries. Good quality, good size, good shipper. Can always be depended upon.

Price, 6 for 75 cents; 12 for \$1.25.

St. Regis—The New Everbearing Raspberry.

DEWBERRY VINES

The dewberry is closely related to the blackberry, but larger and much earlier. Some remarkable profit-records have been made with the dewberry where there is a demand for an earlier and larger berry than the blackberry.

LUCRETIA. The Lucretia is the best of all the Dewberries, glossy black, very large, coreless, juicy and sweet. The vine is vigorous and spreads over the ground. Fruit ripens about ten days to two weeks before the Early Harvest Blackberry.. 6 for 75 cents; 12 for \$1.25.

THREE BEST RASPBERRIES

This fruit comes in just after strawberries, and when properly cultivated is quite prolific. Plant on strong soil, fertilize freely, and mulch heavily. Pinch off canes when three feet high, tie up and cut out old wood each year.

THE GREAT COLUMBIAN RASPBERRY. Hardy and vigorous, often growing eight to ten feet in a season, and standing any degree of frost and drouth. It is propagated by tips, and its productiveness is most astonishing. We know of no variety that can compare with it. The berries are large, dark purple, firm as to texture, with an agreeable, pure, rich flavor, which is brought to its highest flavor when canned or cooked. The most prolific of any sort known, the fruit fairly hanging in masses. A row or hedge of it is a sight to behold. Six for 75 cents; 12 for \$1.25.

CUTHBERT RED. Scarlet crimson, large, conical, handsome, firm and juicy. Canes are strong, vigorous, upright and hardy. The best and most widely planted red raspberry for home gardens. 6 for 75 cents; 12 for \$1.25.

ST. REGIS EVERBEARING. A unique variety of great value. It ripens very early—in advance of all others, and gives an immense summer crop. It also gives an autumn crop, continuing to produce large, perfect berries of full flavor until the ground freezes. The canes are of ironclad hardihood and of vigorous growth. Berries of good size, rich bright crimson in color, and of excellent quality. Unlike any other variety of the red Raspberries, it yields a moderate crop of berries the first season. For table use when fresh and for preserving, no fruit surpasses this delicious Raspberry. Price, 12 for \$1.25; 100 for \$7.50.

SCUPPERNONG GRAPES

This variety is purely Southern, and is of no value to the Northern or Western States. The vine is free from all diseases; fruit never decays. Plant twenty to thirty feet apart in rows. Train on an arbor or trellis and never trim. The product is very large and cultivation reduced to simple form. Price, two-year-old vines, 50 cents each.

STRAWBERRIES

Lovers of Strawberries consider them the most delicious of earth's products, and it is certain that the big, juicy, firm, rich red berries offered in this collection are fit for a royal feast. After long trials and careful comparison we have selected from all the known sorts the varieties offered below as the most desirable and luscious Strawberries for the home or market garden. They are all uniformly large, handsome, rich colored and delightfully flavored. They make an ideal collection for the family garden. Price, postpaid, by mail, 25 for 75 cents; 50 for \$1.25; 100 for \$2.00. By express, not prepaid, 100 for \$1.50; 500 for \$6.25.

LADY THOMPSON. Early, strong, upright plants, deeply; many long runners. Thrives in all soils, but best in rich loam or sand. Berries medium to large, regular, glossy pink solid, meaty, excellent.

EXCELSIOR. This variety is one of the very best extra earlies yet introduced, and is a vigorous, healthy grower—unusually productive for so early a sort—outyielding other standard earlies two to one, while the fruit averages large, is very handsome and firm.

SENATOR DUNLAP. Thoroughly tested and proved one of the best standard varieties wherever tried; strong, hardy, deep-rooted plants; a great bearer of bright, glossy red berries of first-class quality.

GANDY. A reliable late variety, berries bright crimson, very uniform in size and shape, large and firm, plants vigorous and healthy.

WARFIELD. Fatty and productive; berries large and firm. Very dark color, best for canning.

VESTAL'S EARLIEST STRAWBERRY

Of all Strawberries in our list, this ripens the earliest, producing an abundance of perfectly round, beautiful berries of very rich and delicious flavor. In fact it is one of the most productive varieties we have and as it ripens so extremely early it is the favorite home garden variety and also for the large grower, as the market price of the fruit is often 20 cents per quart. A delicious table berry and one of the very best for family use. Price, 25 for \$1.00; 100 for \$3.00.

FALL BEARING STRAWBERRIES

Fall-bearing Strawberries seem to be no longer an experiment, as they are becoming essential all over the country, and are making good every place they have been tested. If these varieties are disbudded, until say August 15 to September 1, and allowed to fruit, they will give large quantities of ripe berries until checked by hard freezing. The variety we offer we consider the best. Price, 25 for \$1.00; 50 for \$1.75; 100 for \$3.00, postpaid.

PROGRESSIVE. This is the strongest growing plant of all the fall-bearing varieties we have seen. The plants are very large and heavily rooted, producing a phenomenal crop of medium to large fruits, of a dark red color both inside and out.

SUPERIOR VEGETABLE SEED

STANDARD VEGETABLE SEEDS

Under this heading we offer standard varieties of vegetables. All our seeds are put up in liberal packets, with full cultural directions upon each. We pay the postage on all seeds ordered by the packet, ounce, quarter-pound, half-pound and pounds, and we guarantee safe delivery in all cases.

As to Our Packets of Seed. The average packet selling at 5 cents postpaid is too small. We, therefore, prefer to put up a more liberal quantity and sell at 10 cents. This is very much more satisfactory, both to you and to us. All seedmen have adopted the rule of selling all seed by the pound. A quart of Beans or Peas is equal to about two pounds.

FULL MEASURE BEAN

A Handsome, Round, Smooth, Green-Podded Stringless Bush Bean. Extra Early, Fine Quality and of Delicious Flavor.

This extra early variety, although comparatively new, has been pretty widely distributed, and we have yet to hear anything but praise about its fine quality and other merits; it is in fact an ideal Snap Bean, producing a fine crop of round, straight, solid, fleshy pods averaging $6\frac{1}{2}$ inches long, wonderfully tender and brittle, without a trace of tough interlining, and having no string when broken, excepting when the pods are quite old. The flavor is most delicious, while the delicate green color of the pods is retained after cooking, adding to its attractiveness when served. The plants are of robust, compact habit, unexcelled in bearing qualities, maturing the crop very regularly. Enormous Pods and Beans; Equaling Those of Pole Limas.

The Fordhook is entirely distinct in habit of growth. The stiffly erect bushes branch freely, and bear tremendous crops. It is ready for use as early as the popular Burpee's Bush Lima, but the Beans are much plumper and remain green much longer. The shelled Beans are very fat, are closely packed in the pods, which shell very easily. Pods are borne in clusters of from 4 to 6, average 4 to 5 inches long and contain usually 4 tender Beans of a delightful flavor.

ZINNIAS

No flowers are more easily grown from seed in the open ground, and few bloom so continuously throughout the entire summer. Those acquainted only with the old-time Zinnias will be surprised at the perfection to which the newer strains have attained.

VESTAL'S BEAUTIFUL SWEET PEAS

OUR NEW MIXED SWEET PEAS. This surpassing mixture includes the very finest and most distinct varieties now in cultivation. No strain offered will give better results and all who buy will be more than pleased.

VESTAL'S "PRIZE" MIXTURE

OF GRANDIFLORA, OR LARGE FLOWERING SWEET PEAS.

This superb mixture is our special pride. During the several years we have sold it, it has been our constant aim to improve and perfect it. The different kinds and sorts contained in this mixture are grown separately, so that we have an opportunity to choose only the largest and most beautiful varieties. These we mix ourselves in proper proportions for the most brilliant effect. It embraces the finest American and Eckford varieties, as well as the latest novelties, and will produce a great abundance of giant flowers of beautiful colors. Some are edged, mottled, blended, flaked and striped. Without exception, this is the very finest mixture it is possible to make. We recommend that our customers buy these seeds by weight and plant liberally. Price, per packet, 10c; ounce, 20c; pound, \$2.00.

LARGE FLOWERING SWEET PEAS

(Improved.)

We offer below a list of the best varieties of Sweet Peas now grown. In our selection we have the clearest, most distinct shades—that stand in the sun—and do not fade quickly when cut. Get a splendid supply of new seed, as nothing can be more satisfactory. Sow seed as early in the spring as ground can be worked, so that plants get an early start. Cut blooms as fast as they appear, which prevents them seeding. Seeding stops the blooming. Price, per pkt., 5 cents; seven pkts. for 25 cents.

DOROTHY ECKFORD. The grandest pure white yet introduced. Extra large flowers, beautiful shell shape; purest white. Vines produce an enormous amount of bloom.

JANET SCOTT. This might almost be called a new shade of rich pink. The unusual size of the wings give the flower an enormous size.

SUNPROOF SALOPIAN. Finest, most brilliant scarlet, never changing colors.

KING EDWARD VII. Most gorgeous large flowers; rich blood-scarlet; new and unrivaled.

BLACK KNIGHT. Large flowers of the finest texture; a bright shining reddish-maroon, very striking. A very desirable color.

SYBIL ECKFORD. Delicate blush pink and lemon yellow, changing to pink.

ST. GEORGE. Rich salmon-orange; very brilliant.

LOTTIE ECKFORD. Large blossoms, shaded light blue on white ground, edged purple; new.

FLORA NORTON. A beautiful rich lavender; one of the most pleasing shades; very large flower.

CAPT. OF BLUES. A grand flower of bright indigo-blue; the wings are a lighter shade of blue, extra large flower.

VESTAL'S SPECIAL BLEND SPENCER SWEET PEAS

If Planted Now They Will Blossom Forth in a Riot of Brilliant Beauty During May and June.

Among recent sweet pea novelties there has appeared nothing finer than the new race of Orchid Flowering or Countess Spencer Peas.

They are distinguished for their gigantic size—usually measuring two inches across. The bold, erect standards, which are uniformly waved, crimped and fluted in exquisite fashion, the charming blending of harmonious colors, the exceedingly long stems, which make them excellent for cutting; the great profusion of flowers and the large number on the stems, usually three or four, make this type so superior in every way that we believe it is certain to supersede the old varieties.

The Sweet Peas in our SPECIAL SPENCER BLEND are made up of the finest named Spencer varieties and range in color from the purest white to shades of pink, lavender, blue, yellow and crimson, and are just the kind to make your garden a success.

It is the very best blend possible to produce and will surely delight all who want a great variety of colors.

Price, per packet of 110 to 125 seed, 20 cents; per ounce, 40 cents, postpaid.

CULTURE — The culture is very simple. Plant seed 3 to 4 inches deep in the most convenient place you happen to have, very early in the spring—just as early as possible—February, March or April—according to the season and locality. Keep the ground loose and mellow; give the young plants some support to climb on—wire netting, twine or brush. Keep the flowers picked off as fast as they open (this is very important) and they will bloom abundantly for weeks.

EXTRA EARLY FLOWERING SWEET PEAS

Any of the following varieties of Sweet Peas may be brought into flower from forty to sixty days after planting the seed. These varieties are called winter blooming kinds by florists who grow them in greenhouses. They also are used for the earliest outdoor blooming. Per pkt., 15 cts.; per ounce, 50 cts.

BURPEE'S EARLIEST WHITE. Flowers purest white. An abundant bloomer, flowers appearing forty-five days after seed is planted.

BURPEE'S EARLIEST OF ALL. Blooms forty-five days after seed is planted in the ground. Color light pink and white; dainty.

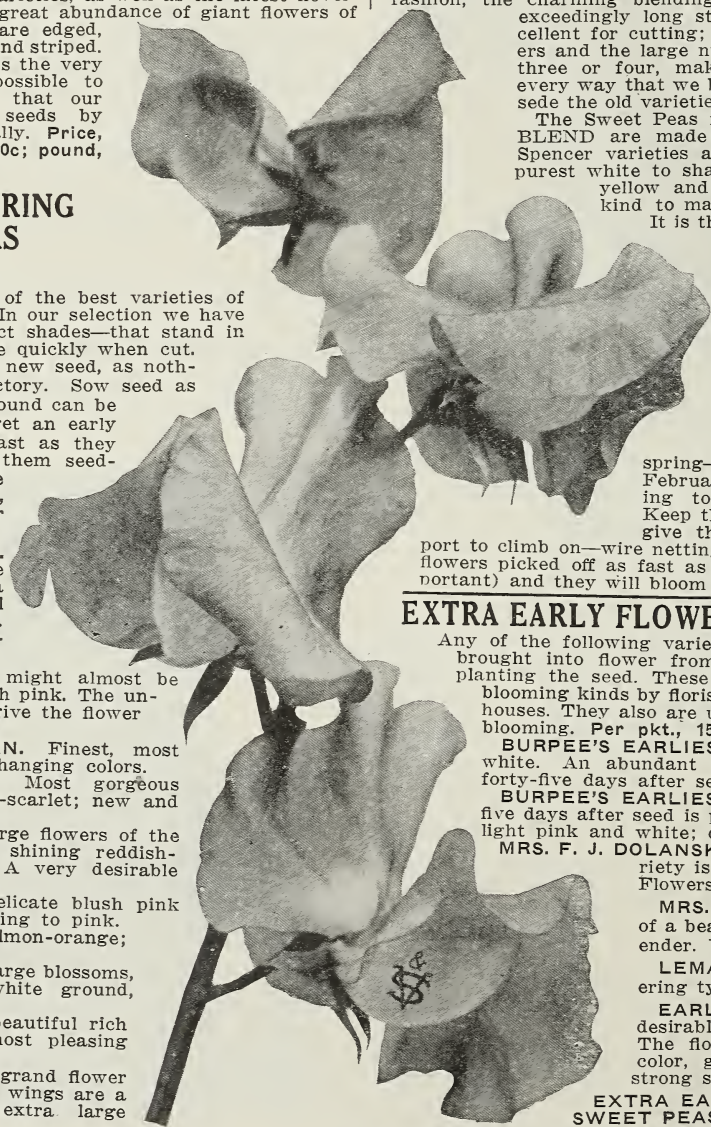

MRS. F. J. DOLANSKY. This early-flowering variety is of strong, vigorous growth. Flowers of a bright pure pink.

MRS. CHAS. H. TOTTY. Flowers of a beautiful sky-blue or light lavender. Unusual size, lovely color.

LEMARQUIS. Is an early flowering type, navy-blue; very fine.

EARLIEST SUNBEAMS. A very desirable variety for early flowering. The flowers are of rich primrose color, generally borne three on a strong stem.

EXTRA EARLY FLOWERING MIXED SWEET PEAS. Per packet, 15 cents; per ounce, 50 cents.

VESTAL'S GIANT SPENCER SWEET PEAS

Price, per packet, 15 cents; per ounce, 50 cents, for any named Spencer Sweet Pea.

ASTA OHN

Pinkish lavender, the wings showing a little more clear lavender. Good size and best Spencer form.

BLANCHE FERRY SPENCER

The popular old "painted lady" pink and white Sweet Pea in magnificent new form.

BEATRICE SPENCER

White, tinted with soft pink and buff on standard, while the wings have prominent blotches, of a brighter pink near base.

COUNTESS SPENCER

The original Spencer type Sweet Pea and to the present day one of the best pinks. The color is bright clear pink on white ground. The pink deepens towards edge of standard. Standard and wings beautifully waved. Strong grower and bears numerous fours.

FLORENCE NIGHTINGALE

Clear lavender with a little mauve color in flower.

FLORENCE MORSE SPENCER

Beautiful light pink, deepening towards edges. Very large, open, wavy form of the best Countess Spencer type, with long stems and four blossoms to the stem. Perhaps better described as a light, pink-edged Countess Spencer. Our new strain of it comes perfectly true.

GEORGE HERBERT

Bright rosy carmine of large size and best Spencer form.

HELEN LEWIS

Standard orange, wings rosy salmon. Large, wavy. One of the earliest Spencer varieties and still a favorite.

KING EDWARD SPENCER

Rich crimson, waved. Flowers are large and of fine Spencer form. It is a vigorous grower and is a good variety for exhibition and for garden.

KING WHITE

A superb white. Purity of whiteness and vigor, form and size remarkable, substance wanting. This is a grand Pea for dry climates but is too thin where rains are frequent during blooming time.

OTHELLO SPENCER

The popular shade of deep maroon, very rich and unusual, immense flowers much crinkled. One of the best varieties of the Sweet Pea family.

PRIMROSE SPENCER

Both standard and wings are of beautiful, soft Primrose or creamy yellow color. Flowers are very substantial and in a class of their own in both color and size.

ROYAL PURPLE

The best Purple Spencer Sweet Pea. As the name suggests the color is near "Royal" Purple. The color deepens and improves as the flowers age, which is a good point in a purple variety. One of the most distinct and successful Spencers introduced. A strong grower and very floriferous, excellent flower.

HARDY OR EVERLASTING SWEET PEAS

A splendid vine, bearing blossoms just like Sweet Peas; all colors, on good, long stems. Fine for covering fences, lattices, etc. Perfectly hardy. Mixed, all colors, price, 10 cents per packet; 50 cents per ounce.

SENATOR SPENCER

The combination of color in the flowers is charming—a deep claret or chocolate, striped and flaked on a ground of light heliotrope. Both standard and wings are extra large, wavy and drooping. Flowers are usually borne four to the stems.

VERMILION BRILLIANT

Scarlet, waved. To date this is one of the best Scarlet Spencers. The color is a rich scarlet but has some crimson in it. It is a vigorous grower for a scarlet and flowers are of good form. A good number of four bloomed sprays are produced.

WEDGEWOOD

Wedgewood is a unique shade of lovely light blue. The flowers, of good size and substance, are well waved in both standard and wings; they are borne almost uniformly in four-flowered sprays upon long stout stems.

WHITE SPENCER

This stock was the first waved white variety. Is conceded to be the best.

YARRAWA

The flowers are exquisitely waved and when well grown average two and one-half inches in diameter. They are produced usually in fours on extra long, strong stems. The color is a bright rose-pink with a clear, creamy base, the wings being slightly lighter in tone. Yarrowa, grown outdoors, begins to flower fully two weeks earlier than the summer Spencers.

HERCULES

A magnificent soft rose-pink of truly giant proportions, undoubtedly the best pure pink. A flower of great substance; the broad spreading and beautifully waved standard frequently measures two and one-half inches in diameter.

ILLUMINATOR

Pronounced the most glorious Sweet Pea ever seen. A rich cerise-salmon with an indication of bright orange which scintillates and glistens under bright sun. Flowers four to a stem, beautifully waved and large.

DAINTY SPENCER

White, with exquisite rose-pink edges. Of uniformly large size and elegant shape.

MARGARET ATLEE

A new shade of pink unlike any other variety, being a glowing pink on a cream ground. The flower is of true Spencer size and form and the plants so vigorous that many "duplex" or double flowers are produced.

FIERY CROSS

This is considered the finest scarlet in existence, of perfect Spencer type and a wonderfully brilliant color.

CAPTAIN OF THE BLUES

A large clear purplish blue full Spencer size possessing bluish purple wings with veins of rosy purple.

MRS. CUTHBERTSON

An improved Apple blossom, a bi-color, having rose pink standard with pure white wings, very large and fine. The best of the bright pink and white Spencers.

NEW SALVIA "SCARLET DRAGON" OR FIREBALL

VESTAL ROSES

COLUMBIA
The Best New
Rose of the Year

Could be rightfully called the Giant Pink, owing to the enormous blooms it produces. Of distinctive merit, being an extremely strong, rank grower, one of the strongest of the everblooming bloomings as it does with the greatest freedom, the buds carried on long, stiff, erect stems, of the very largest size imaginable in a Rose bloom, open flowers often measuring six inches across, full of petals and of wonderful depth, which it retains in perfect formation. Very fragrant. Color clear imperial pink on the order of the La France, deepening as it opens to glowing pink. A peculiarity of the variety is that the shades all become more intense until the full maturity of the open flower is reached, and this color is enduring.

Being fully double makes it a fine summer Rose, particularly adapted to garden culture.

We feel that after all is said, we have not said half enough for Columbia.
